

ORGANIZATION OF 64TH CONGRESS TO BE STARTED TODAY

DEMOCRATIC CAUCUS IS TO BE HELD THIS NOON BUT SESSIONS WILL CONTINUE THROUGH WEEK FOR PARCELLING OUT APPOINTMENTS.

SESSIONS BEGIN NEXT WEEK

Increased Number of Republicans in House Will Necessitate Placing More on Committees—Defense Program One of Most Important Matters to Be Worked Out.

By The Associated Press.

Washington, Nov. 28.—Organization of the Sixty-fourth congress, which convenes next Monday, will begin tomorrow. Democrats of the senate hold their caucus at noon and at the same hour the ways and means committee democrats will undertake the task of parcelling out committee recommendations.

Tonight every train brought to Washington scores of senators and representatives who had postponed their coming until after Thanksgiving. Nearly all the majority members of both branches of congress have arrived.

The senate democratic caucus will be called to order by Senator Kern, the conference chairman. It is expected that there will be daily sessions throughout the week, the question of revising the rules and providing for closure of debate promising to enliven the proceedings. For several months a special committee, headed by Senator Owen of Oklahoma, has been revising the rules under consideration. This committee will report to the caucus its recommendations, including a modified form of closure on debate designed to prevent endless filibusters.

Organization work of the senate majority is not expected to precipitate any clashes. Although there have been rumors of changes in leadership, no definite contests for the honor places have developed. Senator Kern, it is believed, will be re-elected as majority leader. Senator Clarke of Arkansas, as president pro tempore, and Senator Leavelle of Illinois as party whip, if he so desires.

No change in chairmanship of important senate committees is contemplated.

By the retirement of Senators Root and Burton, two important republican vacancies occur. Committee places must be found by the democrats for six new members. Underwood, Alabama; Phelan, California; Beeghan, Kentucky; Broussard, Louisiana; Johnson, South Dakota, and Huston of Wisconsin.

Work of reorganization in the house is a considerably greater task, owing to the large reduction in the democrats and increase in republican membership. Not only are many democratic vacancies left on most of the important committees, but the increase in republican members will necessitate changing the party ratio on nearly all committees in order to take care of the enlarged minority. Few changes in chairmanships of the principal committees are contemplated, however. Representative Kitchin of North Carolina, already has been selected as chairman of the ways and means committee. There are three democratic vacancies on the ways and means committee and at least a dozen candidates.

Republican lists will be submitted by the minority conference headed by Representative Mann of Illinois, after the democratic recommendations have been approved by the party caucus next Saturday night.

One of the most important tasks the ways and means committee has is the reorganization of the committee on naval affairs, in view of the defense program. There are five democratic vacancies on the committee.

Germans Claim Object of Balkan Campaign Obtained

By The Associated Press.

The armies of the Teutonic allies have drifted almost all the Serbs from Serbian territory into Montenegro and northern Albania, leaving in their control only a portion of the southwestern and southern sections of the kingdom, which, with the aid of the British and French forces, they are holding against the Bulgarians.

"With the flight of the scanty remains of the Serbian army into the Albanian mountains," says the latest official German communication, "our operations against this army are brought to a close, our object of affecting communications with Bulgaria and the Turkish empire having been accomplished."

In making this announcement, Berlin reports the capture of Rudnik, southwest of Mitrovitz, and the taking of 2,000 prisoners and much war material. The statement asserts, moreover, that more than 100,000 Serbs—almost half the entire fighting forces—have been made prisoners, while the German losses were "extremely moderate."

Aside from Bulgaria, the Austro-Hungarian theatre is furnishing the most violent fighting of any of the war zones. Here along the littoral front, the Italians are on the offensive against the Austrians, shells are raining on the Gorizia sector, while the Italian infantry have fiercely attacked at Oslavia, on the Podgora height, and the Dobrodo plateau. They penetrated the Austrian positions, but according to Vienna later were driven out.

FIFTY SPEAKERS AT FARM CONFERENCE

Left to right, top, Henry Wallace and Charles J. Brand; bottom, Frank L. McVey and Governor Walsh.

Fifty speakers of national and international note will be heard at the third national conference on marketing and farm credits at Chicago, Nov. 29-Dec. 3. Among them will be Charles J. Brand, chief of the bureau of markets of the U. S. bureau of agriculture; Governor Walsh of Massachusetts; Henry Wallace of Des Moines, Ia., publisher of a farm journal, and Frank L. McVey, president of the University of North Dakota, who will be chairman of the conference.

Sight of Turk Submarine Causes Panic on Barulos and Twenty Five Drown

By The Associated Press.

New York, Nov. 28.—A Turkish submarine stopped the British passenger ship Barulos in the Mediterranean and after 25 persons had been drowned, helped rescue many of the 250 passengers who had gone overboard, according to Eleanor Franklin Egan, an eye-witness, who arrived today on the steamship New York.

The Barulos, according to Mrs. Egan, who is a writer, returning from a six months' trip through southern Europe, left Piraeus for Alexandria on October 22. Although the ship flew the British flag, her crew was Greek, the passengers, a majority third class, being chiefly Greeks and Orientals. When about five hours south of Crete the ship picked up three boats containing the crew of the British steamship Sallor Prince, which had been sunk by a submarine a few hours previous and made their escape.

The Barulos, Mrs. Egan said, carried only four life boats, each with a capacity for thirty people. The picking up of the crew of the Sallor Prince created a feeling of excitement which was at fever heat when suddenly a submarine came to the surface about two miles distant and made the escape.

"Led by the crew and the fire room force, the passengers rushed for the boats. Women unable to get to the boats threw their children into the sea and

Artillery bombardments and sniping operations have prevailed everywhere on the French line, except near Berry-au-Bac, where a strong German reconnaissance was dispersed by the French fire and north of "the Labyrinth," where the Germans succeeded in occupying an excavation caused by the explosion of a mine.

French aeroplanes have bombarded German aircraft hangars at Habsheim, east of Mulhouse, and French and German aviators have had thrilling fights in the air, in which four German machines were brought down.

On the Russian front, except for a small engagement in the Rika district, there has been no fighting, while on the Gallipoli peninsula only artillery actions and mining operations have been in progress of late.

Canada has commandeered all the best grades of wheat now in store at the head of the lakes and eastward for the use of Great Britain and her allies. The step was taken to obviate the necessity of going into the open market and possibly facing the payment of a high price. It is announced that a fair price will be paid for the wheat commandeered.

jumped over them. Frightened sailors cut the ropes holding the small boats and when the latter crashed into the water three of the six were swamped and emptied of their human loads.

"I was at the rail when the submarine appeared and I started back toward the stairs leading below with the idea of helping to quell the panic. I was caught in the rush and literally forced over the side into the sea. I had a hard time to keep above the water, my difficulties being aggravated by the struggles of others trying to catch hold of me.

"Submarine to Rescue.

"It seemed that I had no sooner struck the water than the submarine appeared under the bows of our ship. On her deck I saw a number of men with an officer, a woman and a child. The submarine had her collapsible life boat out and the submarine crew were pulling people out of the water onto her deck. The officer was diving overboard with their mates rescuing children.

"In addition to the 25 drowned, many were wounded in the panic, several of the most serious were taken into the submarine and treated by our ship doctor, who went aboard at the invitation of the submarine commander."

Many Heart Rending Scenes.

Mrs. Egan said she witnessed many heart-rending scenes.

"One woman," she said, "who had lost her three children by throwing them overboard went stark mad. In the steerage was a troupe of Japanese acrobats. One of them, a woman, with an infant child, was seen almost exhausted trying to cling to the sides of the ship. She was surrounded by many others. A rope was thrown into her hands, but looking up, she exclaimed in English:

"Don't mind me. I belong to one and have no one to care for me. Help some one else."

"With these words she passed the rope to another woman and with her babe in her arms, sank from sight."

The rescued British sailors proved heroes. They not only tried to quell the panic but succeeded in rescuing many persons. Afterward they helped the wounded.

Only One Shot Fired.

"Only one shot was fired by the submarine. She remained alongside for five hours, or until all possible rescues had been made. The ship had been attended. She then disappeared under the water and we proceeded to Alexandria without further incident."

I did not learn her name or designating number, but she was one of the largest boats of the kind I have ever seen. The captain of the Sallor Prince told me that he recognized her as the same one that had sunk his ship some hours previous, although at that time he said she flew the Austrian colors. Her deck armament consisted of two 12-pounders which were in plain sight as she came alongside the Barulos. The Sallor Prince, her captain said, was given 30 minutes to get her crew into the boats before she was sunk by nine shots fired into her hold."

Available shipping records here do not contain the name Barulos. This may be due to frequent changing of names and the renaming of ships captured in the war zone.

CAPTURE OF GORIZA CLAIMED IN REPORT NOT YET CONFIRMED

SERBS ONLY HOLD FRINGE OF THEIR COUNTRY ALTHOUGH MONASTIR IS STILL HELD BY THEM, THE BULGARIAN MARCH HAVING BEEN HALTED.

EARLY WINTER IN BALKANS

Snow Falls at Saloniki for First Time in Eight Years—Rumania Daily Becoming More Pro-Ally With Massing of Russian Army Along Border. Reply to Greek Note Expected Today.

By The Associated Press.

Geneva, via Paris, Nov. 28.—Reports from Chiasso, on the Swiss-Italian border, say that Gorizia has fallen, the Italians having entered the town from the north.

There is no official confirmation.

London, Nov. 28.—The greater portion of what remains of the Serbian northern army is believed to have crossed into the mountains of Albania and Montenegro, where the Serbs are continuing with the aid of King Nicholas' troops and supplies which are reaching them from the Adriatic, to offer stern resistance to the Austro-German and Bulgarian invaders. Like the Belgians, however, the Serbians hold only a fringe of their country, which widens as it reaches the southwestern corner, of which Monastir is the center.

For some reason, variously explained, the Bulgarians have halted their march on that city. It is said in some dispatches that, having re-occupied part of Macedonia, largely inhabited by their fellow nationals, the Bulgarian people and government are disinclined to push any further west, and on this point are in disagreement with their Austro-German allies, who are determined to drive not only the Serbians and Montenegrins, but the French and British troops, out of the Balkans.

While at the present time they have largely superior forces, the task may prove a difficult one. Winter has set in at an unusually early date and the natives predict that it will be severe. Snow fell at Saloniki Saturday for the first time in eight years, which is taken as a sign that in the mountains of the peninsula there will be a very heavy fall. During the latter part of the week almost continuous storms compelled suspension of operations, giving the French and British time to bring up reinforcements, which are being landed at Saloniki daily and consolidate their positions.

The Austro-Germans also have had to divert part of their armies down the Danube to the Rumanian border, Rumania having refused the German request for the opening of the Danube throughout its entire length to enable the Germans to send supplies to Bulgaria and Turkey. Rumania insisted that armed ships must not pass the Rumanian-Bulgarian frontier.

With the concentration of the Russians, too, the attitude of Rumania is becoming daily more pro-ally, and the

West Texas—Fair Monday and Tuesday.
Oklahoma—Fair Monday and Tuesday.
Arkansas—Fair Monday and Tuesday.

Louisiana—Fair Monday, colder in southeast portion; Tuesday partly cloudy.

HE'D MAKE INCOMES AND INHERITANCES YIELD NEW REVENUE

John Garner.

Representative John Garner of Texas, a member of the house ways and means committee, favors levying a tax whereby the wealthy will pay a larger part if not the entire additional preparedness revenue. He would double the present income tax, and levy a tax on large inheritances.

GEO. OREGON WILL EXTRADITE RANDALL

FORMER VILLA GOVERNOR REQUESTS THAT HE BE GIVEN SAFE CONDUCT TO SOME PORT.

Matter Referred to Washington—Mexicans Fire on Americans But Shots All Go Wild.

By The Associated Press.

Douglas, Ariz., Nov. 28.—Major General Frederick Funston, commanding the United States troops posted along the international line, conferred today with General Alvaro Obregon, whose forces occupied Nogales, Sonora, last Friday on the Carranza commander's request for the extradition of Carlos Randall, until last Thursday night acting governor of Sonora.

After the conference, General Funston said he would forward to Washington all the facts laid before him in the case of Randall who crossed to the American side before the Carranza forces routed those of General Francisco Villa in Nogales, Sonora.

He announced that a decision in the Randall case would have to come from Washington.

Randall himself expressed the hope today that he would not be turned over to General Obregon, but that he would be given safe conduct to some port of entry to either Cuba or Canada. His wife and family are at Tucson, Ariz.

Wounded Mexicans Transferred.
General Obregon's request that he be allowed to transfer 110 wounded Villa soldiers to Nogales, Sonora, was promptly complied with by General Funston. Adequate facilities had been provided, said Obregon.

"That is the first act of really civilized warfare that has been brought to my attention on the Mexican side of the border and I am especially pleased to acquiesce in the move," was General Funston's comment in granting General Obregon's request.

General Obregon announced that he would leave Nogales, Sonora, tomorrow with all but a few of his troops to join General Martinez, who started yesterday in pursuit of the Villa troops believed to be on their way to Hermosillo, which is reported to have been selected by Villa as his new base and capital. General Martinez' forces, which were reported to have reached Agua Zarca, forty miles south of the international boundary, were proceeding slowly, their progress having been delayed by a work train repairing damage to the railroad.

General Funston requested General Obregon's assistance today in apprehending a small band of border raiders operating west of here. The reported depredations were brought to General Funston's notice by Sheriff W. S. McKnight, who told the American commander that he feared serious trouble unless the raiders were caught.

Cavalrymen Fled On.

General Obregon pressed to either capture the marauders or drive them across the line to be dealt with by the United States troops.

United States cavalrymen on guard duty to the east reported that they were fired upon early today by a small band of mounted men. Their shots were wild and the Americans did not return the fire.

The bodies of twenty-five Villa soldiers and civilian adherents were found by the Carranza forces when they occupied Nogales, Sonora, according to a statement issued by General Obregon today. He further stated that a captain whose name he declined to give and four troops of the Carranza forces were killed when the twelfth infantry replied to the fire which the men under Colonel Cardenas directed against the Americans.

The hundred Villa soldiers captured at Nogales, Sonora, were put to work cleaning up the town and repairing the railroad.

Taking Pictures of Prisoners.

By The Associated Press.
Berlin, Nov. 28.—(By Wireless to Sayville).—Two million persons have been ordered by the German government-general of Poland to have photographs taken, in order that passports may be issued to all over 15 years of age, according to the Overseas News Agency. One million photographs already have been made and this number is being increased at the rate of 30,000 a day. The work is being done by sixty photographers with 250 assistants.

WHEAT IS COMMANDEERED BY CANADIAN GOVERNMENT

Between Twelve and Fifteen Million Bushels Grading One Hard, One, Two and Three Northern Taken Under Special War Act. Price Will Be Fairly Adjusted Is Promise.

FARMERS STILL HOLD 150,000,000 BUSHEL

Action Is Made Necessary Through Failure of Allies to Force the Dardanelles—Big British Order Is to Be Filled and Balance Seized Will Probably Be Sent to Italy—Russia Plentifully Supplied.

By The Associated Press.

Ottawa, Ont., Nov. 28.—The Canadian government has commandeered all high-grade wheat in elevators from Port William, on Lake Superior, to the Atlantic coast.

The action was taken under the special war act, by the Canadian grain commission. The wheat seized was of grades 1 hard and 1, 2 and 3 northern. It was the property of grain shippers and millers.

A revised estimate places the amount at about 12,000,000 to 15,000,000 bushels. A considerable amount is the property of American grain dealers. The grain was taken Saturday night, so that grain exchanges would be affected as little as possible. It is officially stated that the price will be fairly adjusted and the grain owners promptly paid by the Canadian government.

It is estimated that there is still in Canada in the hands of farmers and dealers west of Port William 150,000,000 bushels of wheat available for export. It is expected that most of this will be taken in the future for the use of Great Britain, France and Italy.

The domestic supply of Russia is more than sufficient to meet the needs of that country. Had the Dardanelles been forced the surplus of Russian wheat would have made the present action unnecessary. While the wheat just taken was commandeered to fill an order from the British government for a large quantity of wheat, it is understood that most of it will be shipped to Italy.

The Canadian government will look after the transportation of the grain to the Atlantic seaboard, and from there its shipment across the Atlantic to the British government. It has been in the same way that shipments of oats and hay have been handled for the past year.

The following official statement was issued by the government tonight:

Government Statement.

"The phenomenal crop of wheat in the Canadian west has brought upon the government the duty of assisting to the farthest extent in its marketing. The supply of wheat the world over is known to have been abundant and the importance of taking advantage of every opportunity to provide for the disposal of our grain is on that account the greater. For many months the government has been in touch with the British authorities with a view to procuring orders from the United Kingdom and the allied governments

CONTINUED ON PAGE TWO.

in order that the utmost share of the consuming demand in those countries may be turned toward our Canadian surplus. As a consequence of this, the British government has requested the Canadian government to provide within a short time a very large supply of Nos. 1, 2 and 3 northern wheat.

"The problem of meeting these requirements and at such prices as would induce the repetition of orders in Canada then confronted the government.

"The effect of government purchases in the open market, such as were made by different countries a year ago, is well known to the public. The market rises abnormally, adding to the profits of grain dealers and speculators, who have purchased the grain which the government required. The advance in price of large amounts of grain in store becomes the loss of the purchasing government and the profit not of the producer, but of the owner of the stored grain.

Price Not Decided.

"To secure the desired end this year, the dominion government determined Saturday to commandeer all Nos. 1, 2 and 3 northern wheat in store at the head of the lakes and eastward. This involves the purchase of anywhere from 12,000,000 to 15,000,000 bushels. The price paid has not yet been settled by the government, but will shortly be fixed on a fair basis. The commanding order goes no farther than stated above, and instructions have been given that all loading now under way is to be continued and no delay whatever occur in the transport of the commandeered grain from the elevators to ocean terminals. It will be observed that the order does not apply to grain in elevators west of the lakes, or in transit at the time the order takes effect or subsequently thereto.

"There seems no reason why the grain market should be radically affected by the action taken. Obviously, it does not involve any increase in the world's consumption, or indeed in the world's consumers' demand. It means simply the filling of the existing demand to the extent of the grain taken by this much of the Canadian surplus instead of filling the same from other surplus. The effect will be a rise in the Canadian prices then the beneficial effect will largely accrue to the grain farmers themselves and not to the holders of grain in store. While the holders of grain in store are entitled to fair treatment, it has been thought desirable not to precipitate market conditions at the expense of the customers from whom we hope to obtain orders in the future and who have been in the war.

"The action taken by the British government is based entirely on war necessities."

Letter to Waco Woman Disproves Theory That Mrs. Perry Suicided

That Mrs. Hugh Perry of Dallas, whose mysterious death is the latest tragic puzzle in the police annals of Texas, did not commit suicide seems evident from a cheerful and intimate letter which she wrote only a few hours before she was last seen alive by her sister-in-law, Mrs. W. L. Perry, 919 North Thirtieth street, Waco.

The letter tells of the writer's intention to make the shopping tour with Mrs. Royall Smith in the downtown district of Dallas from which she disappeared, and was probably mailed while on the street. The letter was received at the Dallas postoffice at 1:30 p. m.—about the same time that she left Mrs. Smith to be seen no more until her lifeless form was found in a ravine on Thanksgiving Day, with the mysterious, death-producing handkerchiefs knotted about her neck.

In the letter is expressed a desire to visit Mrs. W. L. Perry in Waco soon and a mention of the health of her husband and other relatives. It is just such a letter that a woman would write hurriedly in order to mail as she went to town, to a relative whom she loved tenderly. This is the last letter that the dead woman is known to have written.

Mrs. W. L. Perry gave the letter to a representative of the Morning News yesterday afternoon as she left on the 4:45 Katy to attend the funeral of the woman whose death is so shrouded in mystery.

Written on a social folio correspondence sheet, and enclosed in a business envelope of her husband, the letter is dated simply "Monday morning," and reads as follows:

"Well, Dear Lilla: I must try and get a short letter off to you; seems to me I do not get to letter writing these days. But I want to write to you. You do not know how much I appreciate your wanting me to come down, but I haven't gotten any clothes; been waiting, so they would not be so high, as during the Fair time is a bad time to buy. So Mayme and I are going down today, as they have some things advertised; but often one wouldn't have them when they see them, but it does no harm to look. I am sure the Cotton Palace was

good and all of you had a good time. I can't get off so well, as when Hugh isn't feeling well. I have been in bed. He has had one of his colds, and then he does much harm, but today he feels better. He is always patient and kind, so I want to try and do all I can for him."

"Hope all of you are well. Some day write me a letter, as I do enjoy getting one from you. Later on I want to come down and see you. Everybody else is as usual."

"Lots of love to all."

" Lovingly, ALICE."

Mrs. W. L. Perry, who was not only a sister-in-law, but a close friend of the murdered woman, as well, dearest, the idea of suicide, which was first held by the theory, seemed absurd and without the least cause, aside from the improbabilities of such a cause as adduced from circumstantial evidence. "It just can't be that," said Mrs. Perry. Mrs. Perry, the brother-in-law of the dead woman, has been in Dallas several days assisting his brother in trying to find some certain clue to unravel the mystery of the tragedy.

It was Mrs. Perry of Waco who wrote a card to the deceased, asking her to visit the Cotton Palace. And it was the suggestion of this card which was found in Dallas that led the police to think possibly the woman might have been in the city during the investigation. It is the only accountable interim from Nov. 15, when she disappeared, until Nov. 25, when the body was found indicating that death was of recent occurrence.

Local police have shown a keen interest in discussing the mysterious death, which threatens to rival the unfathomable tragedy of Florence Brown, the young Dallas woman whose murder baffled attempts at solution some two years ago. The department will not discuss the matter, but is making a local investigation for any clues, which it is reported that they plan.

In discussing the case from newspaper reports which he had read, Detective Sam Sheppard, one of the veterans of the force, gave it as his opinion that suicide was out of the question, according to the circumstantial evidence published.

SERBIAN OPERATIONS RAID LOTTERY SHOP THROUGHOUT CLOSE

SO CLAIM GERMANS IN OFFICIAL STATEMENT AS TO PROGRESS OF WAR.

MORE THAN 100,000 PRISONERS

Opening of Communications to Bulgaria and Turkish Empire Effectual.

By The Associated Press.
Berlin, via London, Nov. 28.—With the occupation of Rudnik, the capture of 2,700 prisoners and the flight of the "scanty remains" of the Serbian army into the Albanian mountains, Germany's operations against Serbia have been brought to a close, says a general staff statement issued today. The object of the operations—the opening of communications with Bulgaria and the Turkish empire—has been accomplished, it is asserted.

Tribute is paid not only to the bravery and endurance of the Austro-German troops, but to the Serbians as well. The claim is made that more than 100,000 prisoners, nearly 50 percent of the Serbian effectives, have been captured. German losses are said to have been "extremely moderate," and there were no epidemics of disease. The communication followed: "Western Throat—After successful mine explosions in the neighborhood of Neuville, between Arras and Lens, our troops occupied the craters and took several prisoners. At various points on the front hand grenade and machine gun fighting occurred. In the Champagne and Argonne, enemy artillery displayed considerable activity.

"Eastern Theatre—Army group of Field Marshal von Hindenburg, an enemy aeroplane was shot down by machine gun fire near Buschof, southwest of Jacobstadt. It fell between our positions and those of the enemy, but was secured at night by our patrols.

"Army group of Prince Leopold of Bavaria. Northwest of Barovichi the Russian advance was repulsed.

"Army of General von Linsing: There is nothing to report.

"Balkan Theatre—Southwest of Mitrovica, Rudnik was occupied. We took more than 2,700 prisoners and much war material.

"With the flight of the scanty remains of the Serbian army into the Albanian mountains, our great operations against the same are brought to a close, our object of effecting communication with Bulgaria and the Turkish empire having been accomplished.

"Army of Field Marshal von Mackensen: The operations of the Austro-Hungarian army under General Koenigs, which was reinforced by German troops against the Drina and the Sava, and operations of the army under General von Gallwitz against the Danube near Semendria and Rambasias were begun on Oct. 6 and the advance of the army under General Ebyadloff (Bulgarian) against the Negotin-First line began Oct. 14. The same day a second Bulgarian army under General Theodorow also commenced operations in the direction of Skopje and Veles.

"Since then our troops have accomplished quickly and smoothly the formidable undertaking of crossing the Danube in the face of the enemy, impeding moreover, by the untimely Kosovo assault, and have captured the enemy frontier fortresses at Belgrade, the taking of which the Austro-Hungarian eighth army corps with the Brandenburg reserves especially distinguished themselves. Hajecar, Kalajevac and Piro fell into the hands of the Bulgarians. In addition to the army our troops have broken completely the tough resistance of an enemy, which, supported by the nature of the country, is injured to war and fought bravely. Neither impregnable positions, inaccessible mountains, thickly snow-clad, nor the absence of reinforcements and shelter were able to check our advance. More than 100,000 men, almost half the entire Serbian fighting force, have been taken prisoners. Their losses in battle and by desertions cannot be estimated. Guns, including heavy artillery and an incalculable quantity of material of all kinds, have been captured. The German losses, however, deplorable, have been extremely moderate and our troops have not suffered from disease."

Troops on Guard at Los Mochis Loot American Property

By The Associated Press.
Los Mochis, Mex., via Wireless to San Diego, Cal., Nov. 28.—Gen. Sepulveda, commanding the Carranza garrison here, stated today that he has intentionally maintained the present garrison at Los Mochis and Aguila until the Indian troubles had been settled.

A party of Americans who took refuge on the United States gunboat Annapolis at the time of the Indian raids visited Los Mochis yesterday. They were informed that the Carranza troops sent here to protect and garrison the place had looted their homes and committed many acts of vandalism.

Advices received today from Guaymas, where the United States cruisers Raleigh and New Orleans are stationed, stated that Villa forces had been driven from Torres, a town on the Southern Pacific railroad about sixty miles north of Guaymas, and that communication had been re-established between Guaymas and Torres.

Rumanian King Opens Parliament Session

By The Associated Press.
London, Nov. 28.—(22.28 a. m.)—King Ferdinand opened the session of the Rumanian parliament in the presence of the crown prince and the ministers. The speech from the throne, says a Bucharest dispatch, referred to the continuance of the "war which is drenching the world with blood," and called attention to the fact that since the previous session other belligerents had been added to the nations engaged.

"This situation," the king continued, "imposes upon us increasingly the duty of uniting our efforts for the defense of Rumania. You will be called upon to decide various measures and credits to face the present difficult conditions and I am convinced that you will continue to supply the needs of our beloved army, which has always shown itself worthy of the love and confidence of the country."

GOVERNOR HALL ORDERS COMPANY OF NATIONAL GUARDSMEN HELD IN READINESS.

Claim Made That Authorities of Jefferson Parish Will Not Enforce Law.

By The Associated Press.
New Orleans, Nov. 28.—Gov. L. E. Hall announced here tonight that he had ordered the Bogalusa company of the Louisiana National Guard held in its quarters to await developments in Jefferson parish, where a detachment of state troops yesterday raided an alleged lottery shop in Southport, a suburb of this city, just across the Jefferson parish line.

Adjutant General McNeese was expected to confer with Governor Hall here tomorrow. The governor refused to state whether he would proclaim martial law in the parish.

Yesterday's raid in Southport was the second made there by state troops within the last three months under orders of the governor. In explaining the first raid, Governor Hall said he was forced to call upon the militia because the parish authorities had failed to enforce the laws, although he had repeatedly requested them to do so.

Of more than 100 persons taken in the first raid, only 15 were brought to trial, and these recently were acquitted for lack of evidence.

About sixty alleged employees and patrons of the establishment were arrested yesterday. The proprietors and employees were delivered to the Jefferson parish authorities today and later were released on bond. The patrons were released after they had been photographed for purposes of identification. They will be summoned as witnesses at the trial of the alleged lottery operators.

Many Will Accompany Henry Ford on Peace Trip Across Ocean

By The Associated Press.
New York, Nov. 28.—The response to the invitation of Henry Ford to accompany him to Europe in an endeavor to bring about peace among the warring nations has been so great, it was announced at Mr. Ford's headquarters here tonight, that additional accommodations have had to be obtained.

It was announced Mr. Ford had chartered the first and second cabins of the Scandinavian-American line Frederick VIII, in addition to the quarters on the Oscar II, of the same line, already provided. The Frederick VIII will sail from New York December 8.

Inability to leave their state business was the reason given by many governors and state officials who have been received at the headquarters here. Among them were James E. Ferguson, Texas; G. W. Hays, Arkansas; Arthur Capper, Kansas, and Charles Henderson, Alabama. Among those accepting invitations were Mrs. Joseph E. R. McKim, Philadelphia; Mrs. Helen Ring Robinson, Denver; the Rev. Charles F. Aked, San Francisco, and Arthur L. Wetherby, secretary of the Nebraska Peace Society.

Veteran Railroad Man Injured Saturday Dies at Fort Worth

By The Associated Press.
Fort Worth, Nov. 28.—Dan Kiser, 64, veteran railroad man, died Sunday morning as the result of scalding received Saturday when a boiler at the Santa Fe pumping plant exploded. Kiser's death was the second fatality resulting from the explosion. T. T. Taylor of Cleburne died Saturday from burns.

General Carranza Reaches Matamoros

By The Associated Press.
Matamoros, Mex., Nov. 28.—On what he describes as the final lap of his tour of Mexican cities on the Mexican-Texas border, Gen. Venustiano Carranza, head of the Mexican de facto government, arrived here late today and was greeted by a large throng, including 300 school children, who sang patriotic Mexican songs. The first chief and his party will remain in Matamoros until the arrival of Luis Cabrera, one of his principal advisers, who is en route from Europe. Cabrera was expected to reach here by Tuesday.

In addressing those assembled here to greet Carranza, Heriberto Ebron, official spokesman for the Mexican leader, urged residents along the border to aid in any way the Mexican bandits who are causing trouble on the Texas side in this vicinity. He characterized the firing across the border at Nogales, Arizona, last Friday by Villa snipers as the "last attempt to involve Mexico in the war with the United States."

Carranza established temporary headquarters in the Matamoros customs house, where important conferences are expected to be held upon the arrival of Luis Cabrera, the most important of which, it is said, will relate to the appointment of Mexican diplomatic representatives to foreign governments.

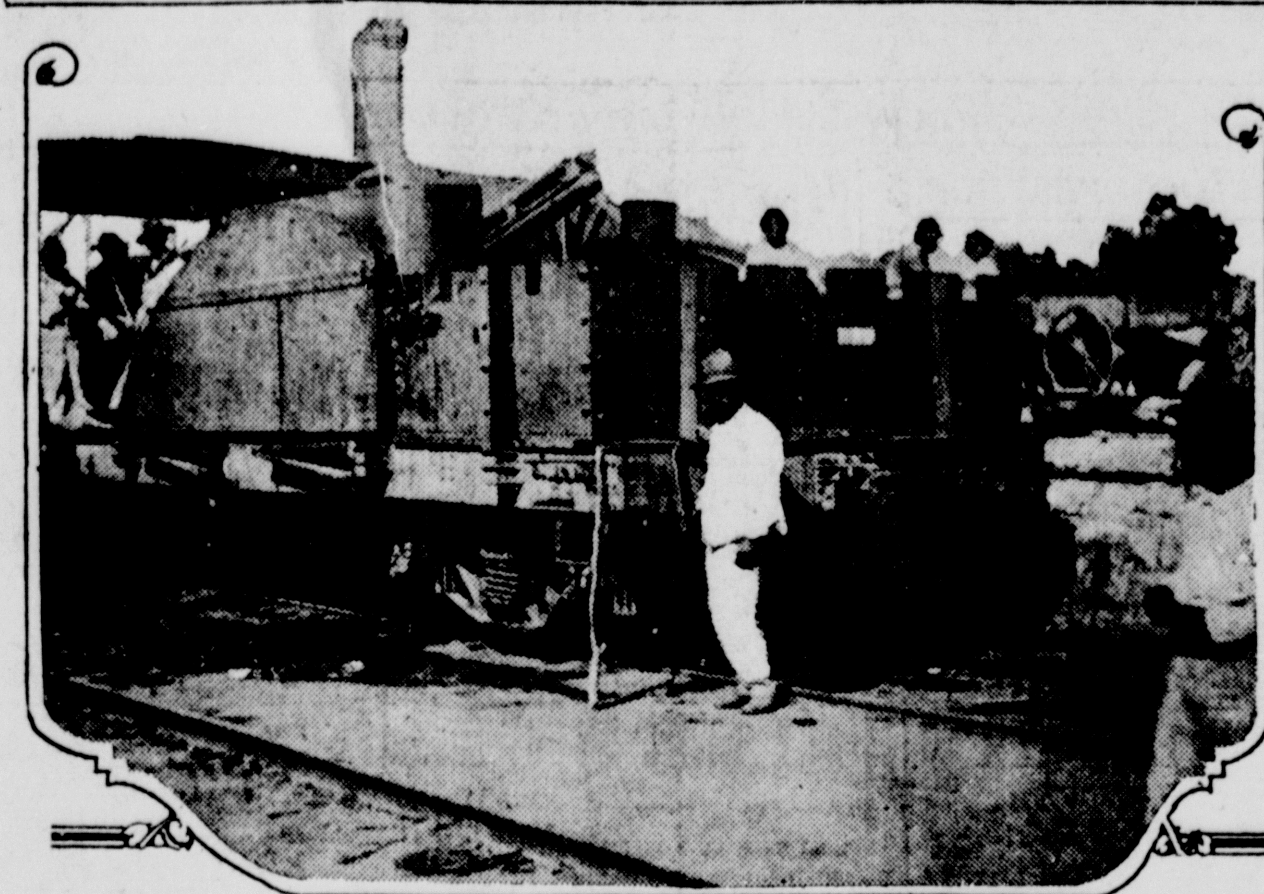

Hoboes Swipe Train and Journey South

By The Associated Press.
Coffeyville, Kan., Nov. 28.—Although Coffeyville officers today met the freight train commandeered last night by sixty hoboes at the Parsons depot of the M. K. & T. railway, no effort was made by the police to interrupt the journey of the travelers and they were allowed to stay aboard the train and pass into Oklahoma.

The men told the officers here all they wanted was to be allowed to go South. They claimed to be workers from the Northern wheat fields, in search of more favorable climate.

Subs Active in Mediterranean.
By The Associated Press.
Berlin, Nov. 28.—(Via London)—Eighteen ships with a total tonnage of 112,000 have been sunk by submarines in the central powers in the Mediterranean up to date, according to an official statement denying the report from Petrograd that the German cruiser Frauenlob had been sunk by an allied submarine. The report adds that English submarines in the Baltic have "sunk only the steamer Afsonomi, 1016 tons."

ARMORED ARTILLERY CAR IN GENERAL CARRANZA'S SERVICE

An ordinary flat car is turned into a mobile fort mounting a three-inch French rapid firer. Heavy steel plates with loop holes for rifle fire protect the gunners while in action.

WHEAT IS COMMANDEERED BY CANADIAN GOVERNMENT

CONTINUED FROM PAGE ONE.

conditions and the response of the Canadian government has been dictated by regard to the same state of facts."

Commission Issues Order.
By The Associated Press.
Fort William, Ont., Nov. 28.—Acting under instructions from the Dominion government, R. Magill, chief grain commissioner of Canada, has issued an order commanding, in behalf of the government, all Nov. 1, 2 and 3 northern wheat in elevators here and at Port Arthur.

The amount seized is approximately 15,000,000 bushels, for which the price has not yet been fixed. The wheat is required by the British government.

No Danger of Shortage.
By The Associated Press.
St. Louis, Nov. 28.—Beyond a probable temporary rise in the price of wheat, the seizure by the Canadian government of all grain in store at the head of the lakes and eastward in the Dominion of Canada will have no effect on wheat markets in the United States, in the opinion of Robert P. Annan, Jr., president of the Merchants' Exchange of this city.

"The dock of Newport News and other eastern ports are overcrowded with more wheat than we can find ships to carry and there is no danger of a shortage in the United States," he said.

Blow to American Farmers.
By The Associated Press.
Kansas City, Nov. 28.—No sensational effects are looked for as a result of the Canadian seizure.

Seizure Will Not Affect Wheat Prices
By The Associated Press.
Chicago, Nov. 28.—The seizure of 12,000,000 to 15,000,000 bushels of wheat by the Canadian government, in the opinion of Robert McDougal, a prominent Chicago exporter, will have no permanent effect on prices in the United States.

"I don't see there will be a bit of a flurry on the local board of trade tomorrow, while traders are adjusting their accounts, but that is all," said Mr. McDougal. "There is still an exportable surplus of 110,000,000 bushels in Canada."

Fire at Pine Bluff Burns Cotton Worth About \$1,250,000

By The Associated Press.
Pine Bluff, Ark., Nov. 28.—Fifteen thousand bales of cotton, valued at approximately \$1,250,000, burned in a fire that destroyed four acres of warehousing sheds at the Dorris B. Compress of the Pine Bluff Compress company late this afternoon.

A blacked insurance policy fully covers the loss on the cotton, much of which was of long staple and worth more than \$75 per bale, according to the manager of the plant.

Sparks from a locomotive passing on tracks twenty feet from the warehousing sheds, are believed to have caused the fire which was the most spectacular in Pine Bluff's history.

The compress is a mile from the edge of the city and firemen did little toward fighting the blaze when after an attempt to run in hose lines they found the pipes of the compress water system half an inch too small, being smaller than the city equipment.

P. P. Byrd of Pine Bluff is president of the Pine Bluff Cotton Compress company.

Will Resume Watson Trial This Morning

By The Associated Press.
Augusta, Ga., Nov. 28.—Trial of Thomas E. Watson of Thomason, Ga., charged with sending obscene matter through the United States mails, will be resumed in federal court here tomorrow with prospects of a lengthy legal battle.

The trial was adjourned yesterday because the entire copies of his publications containing the alleged improper matter should be placed before the jury and not merely the articles objected to by the government. It also was said that Watson might take the stand in his own defense.

Watson, who is a member of the Georgia bar, has acted as his own chief counsel, has summoned no witnesses but has reserved the right to introduce them should he believe it necessary. The government rested its case yesterday.

Watson, who previously had been overruled in his contention that the government should introduce the complete magazines, made an effort again yesterday to set the complete issues before the jury but court was adjourned before the question was argued.

Watson also was expected to make another effort to get before the jury his motives in publishing the articles mentioned in the indictment. He already has been overruled on one point in this connection.

The articles mentioned in the indictment were published in 1911 and 1912 in "Watson's Jeffersonian Magazine," in "Watson's Magazine" and in "The Jeffersonian." They consisted of attacks upon the Roman Catholic church. Language used in the attack was claimed by the government to be outlawed from the mails.

NOCOZARI CITIZENS REPULSE VILLISTAS

AMERICAN OWNED MINING CAMP ATTACKED BY SMALL BAND OF MEXICAN SOLDIERS.

Flying Squadron of 700 Carranza Infantry With Cannon Being Entrained.

By The Associated Press.
Douglas, Ariz., Nov. 28.—Two hundred armed citizens garrisoned at Naco, under the leadership of Captain Manuel Mesa, repulsed an attack by Villa soldiers early today. Naco is an American owned mining camp at the southern terminus of the Naco railroad, 7 miles south of here.

The firing continued until afternoon, when the Villa troops withdrew into the hills.

It was reported that the attack was renewed about 5 p. m. Messages received at Agua Prieta, across the international border from here, said the firing of the Villa men had grown weaker.

The report, which added that a night attack on the mining town was feared, resulted in a flying squadron of 700 Carranza infantrymen, accompanied by several machine guns and two pieces of field artillery, being entrained for the scene.

The last report received here of the Villa's movements was that they had reached Calabasa, 15 miles south of Naco.

The Villa force which attacked Naco was believed to be a part of General Jose Rodriguez's army. The nine Americans in Naco went there some days ago to make preparations for re-opening the mining company's properties.

Emperor Yoshihito Returns to Tokio

By The Associated Press.
Tokyo, Nov. 28.—Accompanying the imperial shrine in a cortege which was a replica of that which departed for Kioto on November 11, Emperor Yoshihito returned to his capital today, after an absence of three weeks. He drove to the palace through the streets packed with silent multitudes. Cheering was forbidden by the police, who desired to maintain a note of reverence. The procession was viewed by many Americans, including the Japanese ambassador, and the United States through him for participating in the naval review.

The coming week will be filled with festivities. American and Japanese officers will mingle at receptions which will be arranged by United States Ambassador Guthrie, Lieutenant-Commander Horne, naval attaché at the American embassy, and Vice-Admiral Kato.

President Wilson Spends Day Quietly
By The Associated Press.
New York, Nov. 28.—President Wilson spent today quietly in New York visiting with his fiancée, Mrs. Norman Galt. He planned to leave shortly after midnight in order to arrive in Washington early tomorrow to complete his annual message to congress which he will read December 7. He will put the finishing touches on the message tomorrow.

Mrs. Galt has decided to remain over here to complete her troupeau for her wedding next month. She will be the guest of Miss Gertrude Gordon.

Number of Trivoli Missing Now Seven
By The Associated Press.
Baltimore, Nov. 28.—As the result of a comparison today of the lists of persons rescued from the steamer Trivoli, which was burned on the Chesapeake bay near Annapolis Friday night, the number of missing has been increased to seven. Two persons are known to have died.

Many Visit Scene of Tragedy.
By The Associated Press.
New Brunswick, N. J., Nov. 28.—While hundreds of persons visited the scene of the tragedy on the Trivoli, which was burned on the Chesapeake bay near Annapolis Friday night, the authorities today began a search for a discharged servant girl of the Trivoli, a family, who, it is believed, may be able to furnish a clue as to a possible cause for the murders. The authorities believe Joseph Petrucci, a farm hand, killed Weitzmann and his family, then committed suicide.

FORMER AMERICAN CONSUL GENERAL AT MUNICH COMES BACK

By The Associated Press.

New York, Nov. 28.—L. St. John Gaffney until recently consul general for the United States at Munich arrived here today on the steamship Oscar II from Copenhagen. He said he would go to Washington Monday or Tuesday to take up the charges against him with the state department.

Of these charges he said he was officially ignorant. A written statement given out by him in part said: "Mr. Gaffney thinks the trouble started with a story which the Morning Post of London printed August 12, based on a wire from its correspondent in Berlin to the effect that he had been rude to Americans and British in Munich. Fleet street correspondents cabled to papers in New York, one of which also printed that a New York Irishman attempted to send a secret letter to him by the Austrian consul general."

Mr. Gaffney said he knew nothing of the letter and that he had testified from America and English people in Munich regarding his conduct.

Officers Refuse to Comment.
By The Associated Press.
Washington, Nov. 28.—There has been no official statement concerning the resignation of Mr. Gaffney. He was asked to resign about September 23, the understanding being that it was because of unneutral utterances, and the resignation was received by cable several days later. Officials declined to comment on the case.

Rent Moratorium Proposed in England
London, Nov. 28.—A moratorium for rent is the remedy that Sir Alfred Mond proposes in order to release married men of the small salaried class for the army. Clerks and shop employees who would enlist if they could afford it are still numerous. Sir Alfred does not really solve the problem, his critics object, since the landlords might retaliate on others and increase the financial difficulties of the hour. Many suggestions are offered for the release of married men and the more the suggestions, the more complex the problem appears. It means either that the families become public charges, or that the women take up their husbands' jobs or do other work to help out their small army allowance.

Reported Took Poison.
By The Associated Press.
Boston, Nov. 28.—The Rev. Francis H. Leslie, an American missionary stationed at Urfa, Mesopotamia, while in a delirium due to illness, eluded the watchfulness of his German nurse and swallowed poison, according to a state department dispatch transmitted today to the American board of commissioners for foreign missions.

A combination ladder, step ladder and staging has been invented, mainly to aid in picking fruit.

With an annual rainfall exceeding 600 inches, Southern Assam is the world's wettest region.

The issue is fatal for the central empires. Nothing but lack of tenacity on our part could save them. Shall we have the necessary energy to go on to the end? If you wish to fix your opinion as to that eventually travel about France everywhere. At the front, in Paris, in the towns as in the country, you will see in the eyes of everyone the unchangeable will to preserve to the very end, to a complete victory."

GENERAL GALLIENI SAYS VICTORY SURE FOR ENTENTE ALLIES

By The Associated Press.

Paris, Nov. 28, 11 a. m.—Gen. Joseph Gallieni has been at his desk in the ministry of war since 5 o'clock this morning when he received the Associated Press correspondent four hours later. It was somewhat difficult at first to realize that this quiet man, in the simplest of civilian uniform, was one of the half dozen leaders who direct the armies of the allies or that he is one of the nerve centers of their immense efforts. It soon became apparent, however, that he is both a thinker and a man of action, bearing his tremendous responsibilities with calm and assurance.

"What are the reasons for my unshakable confidence in victory?" repeated the minister of war. "They are those of every Frenchman. Our enemies have been powerless to attain the essential object of every war—the destruction of the adversary's forces. In September, 1914, when we arrested and repulsed the German offensive, the game was lost by the enemy."

"How do you deduce that the Teutonic empires failed from this moment?" asked the correspondent. "Because this victory gave the allies the essential factor of time," replied General Gallieni, "that has enabled us to organize the effective operations of our resources—resources that are very superior in men and money to those of the enemy and nearly unlimited in material thanks to our mastery of the seas."

General Gallieni then declared the Teutonic allies were "caught in a vise" and said:

"I realize all their energy and vigor, but their importance is secondary. Even their recent successes, made possible by the treason of Bulgaria, cannot modify the strategic situation which has been unalterable for many months. The French, British, Russians and Italian armies are intact. They are growing stronger each day and better armed to vanquish."

Referring to the effect upon the German armies of the frequent transfer of troops from one front to another, the war minister declared:

"Transported to the west, re-transferred to the east, and then to the south, the enemy's armies are exhausting themselves and the quality of the German soldier is rapidly deteriorating."

The issue is fatal for the central empires. Nothing but lack of tenacity on our part could save them. Shall we have the necessary energy to go on to the end? If you wish to fix your opinion as to that eventually travel about France everywhere. At the front, in Paris, in the towns as in the country, you will see in the eyes of everyone the unchangeable will to preserve to the very end, to a complete victory."

With an annual rainfall exceeding 600 inches, Southern Assam is the world's wettest region.

Sir Archibald Murray.

Lieut. Gen. Sir Archibald James Murray, K. C. B., has recently been promoted from his post as chief of the general staff of the expeditionary force in France, under Sir John French, to that of chief of the imperial general staff. He began his fighting career in Zululand in 1888.

Germany Will Keep Schleswig-Holstein

By The Associated Press.
London, Nov. 28, 3:26 p. m.—A Copenhagen dispatch to the Exchange Telegraph company says:

"The German government in a proclamation issued at Schleswig (capital of the province of Schleswig-Holstein), referring to the reversion of this territory to Denmark after the war, either as a gift from Germany's enemies or as a reward from Germany for Denmark's neutrality, states that military operations do not encourage the speculation that Germany can give anything away and it would be unfair to Denmark to suppose the maintenance of her strict neutrality should be dictated by hope of foreign payment."

Schleswig-Holstein is a province of Prussia, south of Denmark. The area is 7339 square miles and about one-tenth of the inhabitants are Danes. In 1864 Prussia and Austria wrested the province from Denmark.

METHODISTS HOLD ANNUAL LOVE FEAST

ALL PULPITS OF COERCIANA ARE FILLED BY CENTRAL TEXAS CONFERENCE VISITORS.

Appointments Not Expected to Be Read Until Tonight or Some Time Tomorrow.

Special to The Morning News.
Coerciana, Nov. 28.—The town, religiously at least, was given over today to the Central Texas conference of the Methodist church. At the first Methodist church at 9 o'clock the annual love feast was held, lasting till 10:30. At 10 o'clock Bishop McCoy preached and ordained the following deacons: C. F. Bell, E. W. Bridges, E. T. Bennett, T. H. Burton, T. D. Ellis, W. G. Gwaltney, W. E. Hamilton, C. O. Hightower, J. C. Mayhew, H. N. Nichols, J. D. Ramsey, W. T. Thompson and G. H. Wilson.
At the same church tonight Rev. Dr. DuBose of Nashville, Tenn., filled the pulpit, and the bishop ordained and anointed elders: J. M. Bond, Preston Broxton, C. B. Ditz, L. L. Felder, R. A. Langston, J. H. Vaughan, F. O. Waddill and C. V. Williams.
The various pulpits of the town were filled today as follows:
First Baptist Church—11 a. m., Dr. E. H. Rawlins; 7:30 p. m., W. L. Nelms.
First Presbyterian—11 a. m., H. A. Boaz; 7:30 p. m., J. H. Stewart.
Third Avenue Presbyterian—11 a. m., Dr. Jno. M. Moore; 7:30 p. m., C. G. Chapell.
United Presbyterian—11 a. m., Dr. Ashley Chappell; 7:30 p. m., S. J. Rucker.
First Christian—11 a. m., Cullom P. Booth; 7:30 p. m., J. W. Shuler.
Methodist Protestant—11 a. m., J. J. Creed; 7:30 p. m., S. G. Thompson.
Cumberland Presbyterian—11 a. m., C. L. Cartwright; 7:30 p. m., C. C. Hightower.
Eleventh Avenue Methodist—11 a. m., K. P. Barton; 7:30 p. m., A. C. Lackey.
A. M. E.—11 a. m., Rev. Alonzo Monk; 7:30 p. m., Rev. W. M. Curry.
Colored M. E.—11 a. m., John M. Neal; 7:30 p. m., Rev. E. E. Kimbrow.
L. O. O. F. Home—3 p. m., Rev. J. P. Mussett.
State Home—3 p. m., Rev. C. L. Brown.
Y. M. C. A.—3 p. m., Dr. C. M. Bishop.
The conference still has much business to attend to, and it is probable the appointments will not be read out before tomorrow night or Tuesday morning.

Plan to Utilize Cellulose Factories Wastage for Sugar

By The Associated Press.
Frankfurt, Germany, Nov. 28.—In the search for food substitutes scientists have discovered that the wastage of cellulose factories throughout Germany contains some 300,000 tons of organic substance with from 10 to 12 per cent of sugar.
The relatively high cost of extracting this sugary substance has heretofore stood in the way of making use of the wastage. Now that prices have soared upward, however, a serious effort is being made to preserve it, even at considerable expense, and use it in feeding the civil population of the empire.
The wastage also contains a high percentage of lime, which, however, has to be removed from the sugar at considerable cost. The proposal to make use of the wastage has the additional advantage that German rivers, into which it at present flows, will be the cleaner for the process.

Negro Gets in Bad Boasting of Prowess as Escaped Convict

After being turned in by friends to whom he admitted that he was wanted on burglary charges in Ballinger, Robert Jackson, a negro, was captured at Second and Franklin streets yesterday afternoon by Officer Charles Jackson. Jackson is being held pending the arrival of the sheriff from Ballinger.

Roads Being Built All Over Poland

Petrograd, Nov. 28.—(Correspondence of the Associated Press.)—The enterprise with which Germany has undertaken the development of Poland during the past few months puts rather in the shade the efforts that the Russian government put forth at various times that territory has been under its control. Apart from the reconstruction of the network of railways, special attention is being given by the Germans to the roads and to agriculture. Lodz has been re-paved, and the important main roads as far as Warsaw have been restored and multiplied in accordance with plans prepared by German engineers. The paving material is said to be of excellent quality, brought from Germany. The work is practically all done by prisoners of war.

In localities which suffered severely from the blight of war the houses are being rebuilt with brick and mortar brought from Germany. Devastated fields have been ploughed and sown with clover and rye for early harvesting. Factories whose machinery was not dismantled by the Russians or destroyed by bombing are being put to work of various kinds. Everywhere the work of reconstruction is being pushed night and day with either two or three shifts of workmen to each twenty-four hours.

Politically, there are also evidences of German attention, according to the news which reaches Polish refugees along the Russian frontier. For purposes of present administration, Poland has been divided into German and Austrian spheres of influence. Meanwhile various proposals for a more permanent local government are being considered. A national council has been created in Warsaw, composed of all the leading Polish politicians who remain together with the manager of the Warsaw land bank and the head of the Society of Journalists. The populace is not allowed to take any part in local government as yet, however, and Governor General Beseler recently issued a special warning to Polish citizens to refrain from political discussion, which he said would be repressed rigidly for the present.

There is much poverty and distress in the larger Polish towns, especially in Warsaw. In an effort to provide for this, the local German authorities propose to introduce special "hunger taxes" on capital, rent, industry and income.

The Warsaw Consistory has ordained that henceforth marriage licenses and similar documents and official correspondence must be made in Polish instead of Russian.

LUXURIANT TITIAN HAIR AND PERFECT FORM ARE HER ASSETS IN SILENT DRAMA

Miss Grace Valentine in "Black Fear."

Her Venus-like figure draped in nothing but her thick, luxuriant, golden hair, Miss Grace Valentine is to be seen shortly in the leading role of "Black Fear," a Metro production. Miss Valentine, like many others, deserted the legitimate stage to face a movie camera.

SHEFFIELD ENGLAND ANSWER TO KRUPP

A. P. REPRESENTATIVE GOES THROUGH PLANTS WHERE CANNON ARE MADE.

Everything Done From Receiving Pig Iron to Turning Out and Testing Fifteen-inch Guns.

Sheffield, Nov. 9.—(Correspondence of the Associated Press.)—An Associated Press representative has today walked ten miles through the plants of Hadfield and Vickers on a tour arranged by the minister of munitions. Sheffield is perhaps as much as any one place the British answer to the Krupp challenge.
Sir Robert Hadfield, who conducted the party through his large shops, explained that Herr Krupp von Bollen was his guest five weeks before war was declared. Now the Hadfield plant is working day and night to counteract the Krupp influence.
While engineers and metallurgists would find countless details to interest them in such a visit, the newspaper man merely grasps some notion of the intensity of output, the ceaseless pace, the driving power of this enormous establishment, all running with one aim. It is as if every foot of the machines, every turn of the shafts chimed in the chorus: "Our aim is to kill Germans."

At the Hadfield plant the Associated Press man was permitted to repeat the experiment conducted on the occasion of the king's visit five weeks ago, the discharge of a 10 centimeter shell at a 4-inch plate, at an angle of 50 degrees, pierced the armor; the correspondent's did not. One of each allotment of shells is thus tested. And there are acres and acres of shells completed and awaiting shipment. And new factories are in process of erection.
The Hadfield plant, the home of manganese steel and other noteworthy inventions, all the ingenuity and capacity are harnessed to the munition work.

CHARGES OF OUTRAGES ON CATHOLICS DENIED

SECRETARY TUMULTY REPLIES TO CRITICISM OF CARRANZA'S RECOGNITION.

Emphasis Is Laid on Similar Action by Catholic Latin-American Countries.

By the Associated Press.
Washington, Nov. 28.—The administration's reply to those who criticize the recognition of the Carranza government in Mexico because of charges of outrages upon priests and nuns of the Catholic church was made public here tonight in a letter by Secretary Tumulty to Dr. James J. McGuire of Trenton, N. J., who recently wrote to the white house asking for an explanation of what he characterized as "widespread criticism."
Secretary Tumulty advised Dr. McGuire that the files of the state department failed to disclose any official record of a single proven case of outrages upon nuns, and he included in his letter a statement by the Catholic vicar general at Mexico City, which while disclosing the shooting of priests, and the expulsion and imprisonment of others, declared there had been no violations of nuns in that district.
Secretary Tumulty said in all wars the horrors of the conflict have been kept alive by those on the losing side, but that it should be the duty of all citizens of both the United States and Mexico to contribute in every manner to the early rehabilitation of the people of Mexico to torture, to people as long as they are kept in prison, and to the shooting of priests, and the expulsion and imprisonment of others, declared there had been no violations of nuns in that district.

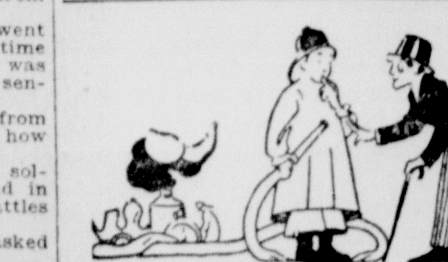

Secretary Tumulty said in all wars the horrors of the conflict have been kept alive by those on the losing side, but that it should be the duty of all citizens of both the United States and Mexico to contribute in every manner to the early rehabilitation of the people of Mexico to torture, to people as long as they are kept in prison, and to the shooting of priests, and the expulsion and imprisonment of others, declared there had been no violations of nuns in that district.
"Counsel and sympathy are needed and would be of wonderful efficacy in untiring the people of Mexico in the work of reconstruction," wrote Mr. Tumulty. "Efforts to arouse rancorous feelings among them will have the effect of opening anew the wounds which should be healed, and of creating an open sore to torture the people as long as their minds are kept inflamed against their brethren."
The secretary also called attention to the recognition of President Juarez by the Buchanan administration following the bloodthirsty civil of all civil wars ever waged in Mexico, marked by "all the bitterness and cruelties of a religious war."

Emphasis was laid on the recognition of Carranza by the Latin-American peace conference. All of these Latin-American countries, Mr. Tumulty pointed out, were Catholic nations.
Finally, a statement was reproduced which was given by the state department by Eliseo Arredondo, the Washington representative of General Carranza, last October, pledging the Carranza government to respect everybody's "life, property and religious beliefs."

Secretary Tumulty enclosed in his message, a letter written by former Secretary Bryan last March to Rev. Francis C. Kelley of Chicago, giving in detail various steps taken by the United States government during the progress of the revolution in Mexico to protect the representatives of all religious organizations in Mexico. It previously has been published.

Used Whenever Quinine Is Needed Does Not Affect the Head

Because of its tonic and laxative effect, LAXATIVE BROMO QUININE will be found better than ordinary Quinine for any purpose for which Quinine is used. Does not cause nervousness nor ringing in head. Remember there is only one "Bromo Quinine." Look for signature of E. W. Grove. 25c. Adv.

Whirlwind Sale Today of Admission Ribbons for Open Air Banquet

Y. M. B. L. teams distributing admission ribbons to the Good Roads and Prosperity Banquet tomorrow night will make a whirlwind campaign today to bring the total number of ribbons distributed in Waco up to 1500. More than 600 ribbons have already been distributed. In addition, several hundred ribbons have been sent out to prominent farmers in nearly every community in the county for free distribution to their neighbors. It is expected that the total attendance at the banquet will reach the 2000 mark.
South Sixth street between Austin and Washington will be closed tomorrow while workmen are busy constructing the long tables and building the grandstand. More than 3000 lineal feet of table space will be required for the banquet.
Chairman Fiske Wright of the menu and service committee will complete arrangements for supplying the foods and serving the banquet today. A large portion of the food required has been donated by Waco merchants. The State House hotel, the Metropole hotel and the Waco hotel have tendered the use of their kitchens and cooks for preparing the foods, and Waco bakers will bake the turkeys and bread required for the banquet.
Arrangements for handling the monster crowds that are expected to gather before the banquet is ready to serve have been completed. Company K and Company G, the local companies of the Texas National Guard, under the command of Captain P. A. Weatherly, will act as guards before and during the banquet. The soldier boys will have a little feed of their own in the army before going on duty at the banquet.

CAPTURE OF GORIZIA CLAIMED IN REPORT NOT YET CONFIRMED

CONTINUED FROM PAGE ONE.

Austro-Germans, having aided Bulgarians in her campaign against Serbia, which is now cleared, are called upon to protect her against aggression from the east.
Italian warships, including new dreadnoughts, have again been seen off the Black Sea coast of Bulgaria, but there is no news of any landing or movement of troops.
Both the eastern and western fronts the artillery, as was the case last winter, is doing the heaviest part of the work, and it appears doubtful whether either side will attempt an offensive for the present.

Italy on the other hand, undeterred by winter, is pushing her offensive and rendering the Austrian hold on Gorizia and Rovereto daily more uncertain.
The Turks have again been showing some activity in Gallipoli and claim minor successes against the allies. However, no big action has been fought.
German anxiety over Rumania is matched by that of the allied powers with regard to Greece. Last week it was believed that all differences between Greece and the allies had been surmounted, but it was found necessary to send another note to Greece, the reply to which is promised Monday. The allies now demand not only assurances of the safety of their troops, but adequate railway facilities for their transport, the withdrawal of Greek troops from the vicinity of Saloniki and the policing of Greek waters against German submarines.

Russian Official Statement.

By The Associated Press.
Petrograd, via London, Nov. 28.—The official communication today reads:
"With the exception of a feeble, easily disposed of attempt of the Germans to attack the region of the river Aa, there has been complete calm on the whole front."
"In the Caucasus, in the coast region of the Black sea, southwest of Khorp, there have been successful reconnoissances. Near Teve, near Lake Tortum, our sharpshooters descended by ropes from precipice and dispersed by a sudden raid detachments of Turks and seized their gun."
"In the region of Doudak, on the Euphrates, and east of Melasghert, the situation is unchanged."
"In the region of Ardlich, on the northern shore of Lake Van and near Khoshkore, there were encounters with Kurdish bands, who fled to the mountains after having suffered heavy losses."
"In Persia, south of Lake Urumiah and near Kalapasha, our troops came into collision with Turks and Kurds, which fled into Turkey. In the direction of Teheran there has been nothing to report since the arrival of our troops at Enghia, Imam and Keredji."

French Official Statement.

By The Associated Press.
Paris, Nov. 28, 2:40 p. m.—The official statement today follows:
"In Artois the night was marked by active bomb and hand grenade fighting at the fortifications of Givenchy and in the region between Roellencourt and the Chantelard farm."
"North of 'the Labyrinth' the enemy after having exploded a mine in front of one of our works, delivered an attack. Violent fighting followed which terminated to our advantage. The enemy did not succeed in reaching our trench. He was only able to destroy the crater formed by the explosion of the mine."
"Yesterday our aviators dropped nine bombs on the railroad station at Noyon and compelled two captive balloons to descend. This morning northeast of Theze, St. Martin, in the region of Pont-a-Mousson, one of our aeroplanes engaged a German machine and caused it to fall in the enemy's lines."

Austrian Official Statement.

Vienna, via London, Nov. 28.—The official communication today reads:
"On the Russian front no important events have occurred."
"Italian fronts: the whole littoral from the Italians continued actively. In their unsuccessful attempts yesterday they lost heavily. The most stubborn battle was fought at the Gorizia bridgehead, where the enemy interrupted attacks with all of his fresh and strong forces, especially near Osavia, where they attempted to break through along the road."
"For a short time the summit northeast of Osavia was in the hands of the enemy, but after heavy fire by our artillery the troops regained all their original trenches, storming them."
"The Italians also penetrated our position at Podgora, but were driven out and afterwards pursued. The ground before the bridgehead was covered with enemy dead. Near Osavia alone we counted a thousand bodies."
"On the Italian front the summit northeast of Osavia was in the hands of the Italians limited their operations to an attack southwest of San Marino, which was repulsed. Equally unsuccessful were all attacks in the northern Isonzo sector near Zagora, against several points of the Tolmino bridgehead, at Mirjaviz, where 400 bodies were left in front of our position, and on the Orsis position."
"The situation elsewhere is unchanged. The Isonzo front is firmly in the hands of our troops."
"On the Tyrolean frontier the Italians attacked the mountain slopes of the Schudobach frontier bridge and were repulsed."
"Southeastern theatre: Austro-Hungarian troops fighting on the northern Montenegrin frontier yesterday repulsed the enemy's attacks. The border region of Celebrie was also cleared. An Austro-Hungarian column, advancing from Mitrovica, has reached the Montenegrin frontier along the road to Ipek. Thirteen hundred prisoners were captured in this region."
"The Bulgarians occupied Golex, southwest of Iristina, and the heights west of Parizovic."

Russian Official Statement.

By The Associated Press.
Paris, Nov. 28.—The official communication tonight reads:
"During the day our aviators continued most active. In Belgium one of our aeroplanes set out in pursuit of a squadron, succeeded in bringing down a German aeroplane which fell into the sea off Westende-Bains. A capture boat and German small boats started out from Ostend and Middlekerke for the purpose of rescue. Allied aeroplanes and artillery attacked the small boats. The German aeroplane was shot down and succeeded in sinking one of them."
"A squadron of ten aeroplanes has been attacked by the hangars at Habsheim, east of Muelhausen. The hangars caught fire. One aeroplane on the ground was damaged by our projectiles."
"The Bulgarians attempted to pursue. One aeroplane struck by several bullets from a machine gun was obliged to land. Another captured near Lutetia."
"In the region of Nancy a German aeroplane was attacked by one of our aeroplanes. The French machine coming to close quarters with the adversary, succeeded in cutting it down. Another German aeroplane which took part in the combat turned tail."

Notice to Subscribers.
Delivery routes in the city of Waco are in the hands of independent carriers, who by their papers at wholesale prices. Subscriptions are due them, not the Waco Morning News. They are under heavy bond, not only to give the best delivery service, but to pay for their papers each month. Their remuneration is the difference between the wholesale price and the retail price which they receive from subscribers. This margin of profit is such that they cannot afford to extend credit, except month by month. They are not required, and they are advised against, delivering the paper to anyone who does not pay in accordance with the above subscription terms. These carriers are all earnest, hard working men and they will appreciate any courtesy shown them.

The Morning News should be delivered throughout the city of Waco by 6:30 a. m., and subscribers failing to receive the paper at that time will confer a favor by phoning the Circulation Department, both phones 1132, and a copy will be sent by special messenger.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Morning News will be gladly corrected upon its being brought to the attention of the manager.

TRAINING THE INDIAN.

The committee on course of study for the United States Indian schools recently convened by the commissioner of Indian affairs, Cato Sells, after several weeks' work in conference at Washington, has completed a course of study which will give to the Indians the best vocational training offered by any school system in the United States.

As these schools must train Indian youth of both sexes to assume the duties and responsibilities of self-support and citizenship, this course strongly emphasizes vocational training.

It is divided into three divisions. The first is the beginning stage, the second the finding stage, and the third the finishing stage. During the first and second periods the training in domestic and industrial activities centers around the conditions essential to the improvement and proper maintenance of the home and farm. The course outlined in the pre-vocational division is unique in the fact that in addition to the regular academic subjects boys are required to take practical courses in farming, gardening, dairying, farm carpentry, farm blacksmithing, farm engineering, farm masonry, farm painting and shoe and harness repairing, and all girls are required to take courses in home cooking, sewing, laundering, nursing, poultry raising and kitchen gardening.

This course not only prepares the Indian youth for industrial efficiency, but at the same time helps them to find those activities for which they are best adapted and to which they should apply themselves definitely during the vocational period, the character and amount of academic work being determined by its relative value and importance as a means of solving the problems of the farmer, mechanic and housewife.

Non-essentials are eliminated. One-half of each day is given to industrial training and the other half to academic studies. All effort is directed toward training Indian boys and girls for efficient and useful lives under the conditions which they must meet after leaving school. Other objects to which this course directs special attention are health, motherhood and child welfare, civics, community meetings and extension work.

Meet me at the prosperity banquet Tuesday night.

Net profits of \$48,873 were reported this year by the Texas State fair at Dallas.

If you don't believe prosperity is here, attend the prosperity banquet here Tuesday night.

The unkindest cut of all seems to be located at the Panama canal, observes the Columbia State.

San Angelo refuses to accept the offer of a street car system as a Christmas gift and the announcement comes that the tracks will be torn up.

According to John Hays Hammond Jr., the United States army needs 2,000 aeroplanes. As it has taken us seven years to get fifty-three such machines, we fear this form of aircraft will have become antiquated before we can lay in enough of them to satisfy Mr. Hammond.

CARRANZA AT CLOSE RANGE.

Various papers of the country—the Morning News included—have indulged themselves freely in expressions as to the character and qualifications of Venustiano Carranza, chief of the de facto government of Mexico. Some of these impressions have been in accordance with the facts in the case and others have not.

Dr. Henry Allen Tupper, distinguished lecturer, globe trotter and peace advocate, expresses a close acquaintance with Carranza and as he consented to tell some of the papers what he thinks of the present president of the republic across the Rio Grande we are reproducing his interview below for what it is worth. The interview is an interesting one and now that Carranza has been chosen to bring order out of chaos in Mexico we shall hope that Dr. Tupper's estimate is the correct one and that the man of whiskers will prove that he has brains, character, executive ability and statesmanship, as well, and that our course in extending recognition to him will be abundantly justified.

Here is what Dr. Tupper says of him:

"In the early spring of 1913, accompanied by a personal friend of Governor Carranza, I went from San Antonio to Piedras Negras and there, for the first time, I met him. As he entered the reception room in the custom house I was greatly impressed by his personal appearance. He is much taller than the Mexicans you usually meet; his broad shoulders, wide forehead, large features and quiet demeanor give evidence of massive strength; and he reminds you of a fine specimen of a Civil War veteran. While graciously polite, he was coldly dignified, at his first interview; and, during our conversation, he calmly asked: 'Have you come here to ask me to open negotiations with that murderer, assassin and usurper, Huerta, who slew my friend, President Madero?'

"When my mission was explained, he seemed more receptive and responsive; and I was invited to another conference the following morning. The next day he was much more tractable, received me cordially, presented to me a large photograph of himself, appropriately inscribed and, more important than all, handed me a concise statement of the purposes that actuated him and his followers in the rebellion against Huerta.

"Two years and a half have passed since that meeting. During this time I have visited Senor Carranza many times; and my admiration of him has gradually and uninterruptedly increased. In the family circle, in the social gatherings, in his council meetings, on the battlefield, on the railroads, in his automobile trips and in the historic convention at the City of Mexico, I have studied this remarkable man; and I have found him consistent and trustworthy. As have all men, he has his limitations and weaknesses, but the people and press of the United States have, as a whole, failed utterly to appreciate the ability, the integrity and the sincerity of Venustiano Carranza.

"Repeatedly have I said during these months of study and investigation, that, unaided, no Mexican can control Mexico. The times and regime of Diaz have passed; and never again will a dictator be tolerated in this republic. The one who leads in the reconstruction and rehabilitation of Mexico must have the active support of the outside world, especially of the United States. Without this, it matters not how high his motives may be, he will inevitably fail.

"Immediately after recognition was extended to First Chief Carranza and his government, I received from him an appreciative cablegram; and, in response, I urged him to regard this fortunate action merely as a means, not an end. That he thus regards it, I have every reason to be convinced. His opportunities are only surpassed by his responsibilities; and his friends have faith that he fully appreciates the former, and will rise to the latter. I have in my possession a paper, signed by V. Carranza, in which he solemnly promises that he will extend generous amnesties, will guarantee the security of the life and property of foreigners, in the districts controlled by the constitutionalists, will insist upon religious liberty under the law of the separation of church and state as it exists in the United States, will encourage the legitimate development of the material resources of Mexico by foreign capital and the settlement of worthy foreigners in his republic and will strive to maintain the most cordial and friendly relationship between Mexico and all foreign nations. I have no doubt that he is absolutely sincere in these declarations, and, if he is properly supported and encouraged by his own people and by foreigners, and if his life is spared, a new era will soon dawn upon that war devastated land."

Chicago says there are too many bulls in corn just now. Why not pitch a few of them over in the cotton patch?

NEEDS OF THE CONSULAR SERVICE.

We have heard a great deal recently about efforts to hold the trade that has come to us from the fact that the European nations at war are unable to supply many of their former customers with goods that can be had in the United States. The establishment of a merchant marine, the inauguration of more favorable banking relations with foreign countries, the cultivation of these countries more fully along diplomatic and social lines, have all been suggested, and all these proposed means are doubtless effective. But we need, also, to improve our consular service, as the Saturday Evening Post points out in the following editorial:

"Within a decade or so the consular service has been greatly improved. The fact that a man has edited the Lone Elm Bugle in single-hearted devotion to the political interests of Senator Snodgrass for a dozen years no longer entitles him to represent the nation commercially in foreign lands.

"Tenure of office is secure for a man who behaves himself and does his work acceptably. Such a man may entertain reasonable hopes of advancement. This is a great gain.

"The consular service should, of course, offer a career. It should be able to compete for talent with the foreign departments of the Steel Corporation and the Standard Oil Company. Rooting out the spoils system has started it hopefully in that direction; but in the vast commotion at Washington a good many details get slighted, and in some cases consular pay is inadequate because it does not take proper account of the expenses of that particular post. There are posts where the British and German consuls get all the way from thirty to a hundred per cent more than the American consul—and England and Germany are not throwing away money either. A hard-and-fast rule on traveling expenses sometimes takes money out of a consul's pocket.

"Housing a consulate over a lively stable is not good business. The Standard Oil Company, knowing the commercial value of appearances, would not house its branch office that way.

"The service has been greatly improved; but it is still somewhat under the delusion that a dollar saved is always a hundred cents clear gain—whereas, in fact, it is often a million cents dead loss. A wise liberality is what the consular service needs."

Valley Mills and Meridian are coming along, having been designated for auto mail delivery.

Now that they are proposing to levy a tax upon all bachelors whose income amounts to \$2,000, it seems that some of our men who have been reveling in single blessedness may have to marry in self-defense.

It is a good thing for Mr. McAdoo that he does not owe his office to elections by the people, for his proposal to increase the federal tax list is calculated to make many want to swear him.

C. H. Morris of Winnsboro says he will be a candidate for governor in 1916. We would say that he is not well known over the state, but neither was Governor Ferguson when he first announced.

Col. J. H. Parramore of Abilene has agreed to put up \$10,000 for a new girls' dormitory at Simmons college, that city, provided the Chamber of Commerce can raise \$30,000 additional from other sources.

According to the Austin American, some parents—we presume they live in Austin—are such decided vegetarians that they will not let their children eat animal crackers or horse-radish. But would they draw the line at cow peas or catnip tea?

A film company advises us that it is trying to find "The Modern Adonis" in the person of the handsomest man in America and asks our assistance in that direction. Of course, we are too modest to submit our own photograph, but if any of our readers would like to enter the competition we will be glad to forward their likenesses to the proper address.

It is intimated that President Wilson, in his forthcoming message to congress, will assault the pork barrel. If he does, then we anticipate he will not be as popular with this congress as he was with the preceding one, and that his message to that body will not be received as enthusiastically over the country as his messages to Kaiser Wilhelm and John Bull.

"Anita finds a way," reads a headline. But since she was a woman we see nothing new in it. A woman always finds a way, and if she does not find one already made she proceeds to make one to order. And, somehow, we rather admire her for it.

WHAT IS AMERICAN MERCHANT MARINE?

CHAMBER OF COMMERCE, UNITED STATES, GIVES DETAILED EXPLANATION OF SITUATION.

26,701 VESSELS REGISTERED

Nation Has Large Number of Ships But Not Nearly Enough to Take Care of Trade.

Special to the Morning News.

Washington, Nov. 28.—The principal trouble with the American merchant marine is not that it is infinitesimally small. It is not small according to the Nation's Business, the official magazine of the Chamber of Commerce of the United States. It is quite respectable both in number and tonnage. Its lamentable weakness lies in the fact that it is out of all proportion to the enormous trade of the country.

When one speaks of a merchant marine there persists an impression that something inherently connected with merchants, merchandise and cargoes is meant, and, further, that it has to do with the sea. Yet more than 12,000 nearly half of our total merchant marine may be said truthfully to have more to do with the land.

Also Some Canal Boats.

Out of a total of 26,701 registered and licensed vessels, there are 4322 motor boats, 560 canal boats and 3431 barges, which, metaphorically speaking, never take more than a dip in salt water. There remain some 14,000 vessels to account for, which may have to do with the romance and economics of those who go down to the sea in ships.

As a matter of fact, it appears that less than 3000 of these ever plough their furrow through foreign seas. The remaining 11,000 have their life and being in the different waters—fresh and salt—which make the United States, in one respect, unique. For no other of the leading maritime nations has so extensive a coast line, such inland seas, or such far-reaching river navigation. The western rivers show more than 1833 vessels, aggregating 138,804 tons. There is a great traffic on the lakes: 3161 vessels in all, nearly 3,000,000 tons. But even the shipping of the Great Lakes has not that resistance in cotton bolls which a merchant marine implies, although it offers a totally neglected but unsurpassed wealth of material in men, possibly 20,000 strong, for reserves for the navy.

What is coastwise trade? It is an anomalous thing. It means trade from one American port to another, which, by the delightful irony of statistics, which piles bewilderment upon bewilderment, is carried on by the 10,000-ton ocean steamer which runs between San Francisco, Honolulu and New York.

Swarms of Motor Boats.

Consequently, no one seems to know, from authentic data, what part of our coastwise trade might be dignified as a reputable element in the merchant marine of a great nation. It is therefore evident—from a survey of the statistics of the American merchant marine—that the figures for the trade on the coasts—which includes adjacency of sounds, bays and rivers—must cover a swarm of small schooners, steamers, motor boats and barges, as well as ocean steamers.

Meridian, as far as the rest of the world knows, the American flag, as seen in foreign trade, our merchant marine consists of 37 steel sailing ships averaging 1600 tons each, 544 wooden sailing vessels averaging 600 tons, 329 wooden steamers averaging 300 tons and 331 steel steamships averaging 3800 tons. There are also 537 motor boats and 1106 barges.

A Startling Situation.

In large merchant steamers, the class that is fast growing in commerce and of a size and speed to render some of our naval auxiliaries, the United States stands third, surpassed only by Great Britain and Germany. But a glance at the grand totals and then at the individual figures for each country reveals a startling situation. It seems that sixty per cent of the big and able steamers in the world are owned by Great Britain and not seven per cent by the United States. Here lies the root of all discouragement as to our merchant marine.

The trade and wealth of the United States has at its disposal only one-tenth of the shipping facilities to the British merchant and manufacturer. To carry the bulk of our seaborne trade, we are forced to rely on the ships of friendly nations.

The estimated result is that every year \$300,000,000 leave the United States in the form of freight payments deposited in the coffers of foreign ship owners. America does not subscribe to the upkeep but also to the construction of ships of their marine competitors. If the United States is to take its proper place, it must drain quite high a price of France, Italy, Norway and Holland. Americans must have actual commercial sea power in proportion to their trade.

SCHOLARLY MR. SHIFTLESS.

Bill Knows Pretty Near Everything But How to Earn a Living.

For a man who does not take a single daily paper or a magazine of any kind, Old Bill Shiftless is remarkably well posted. He knows all about the financial situation over the world; can tell to an inch just where the big armies in the European war are located, and how many men each side has lost. Bill knows all about Mrs. Galt and the other love affairs of Woodrow Wilson. In fact, you can't ask Old Bill a single question about anything that he can't answer. Where Old Bill absorbs his knowledge is a town mystery. He never was in the least bit of a student. But still he knows everything.

Nobody believes a single word Old Bill says, but he keeps on talking. He is wrong nine times where he is right once, but still he maintains his local reputation as a human encyclopedia. We get awful tired of that infernal mouth of his, but there appears to be only one way of shutting it up. Let him get into you for a dollar or two and then dun him whenever you see him. He always has business down street on such occasions. Old Bill certainly would be a terror in a new town.

Bert Walker, in the Osborne (Kan.) Banner.

In a short time one may be able to go from Alaska to Patagonia in a sleeping car. Already more than 7,000 of the total of 12,000, or 13,000 miles of railroad is in operation.

WILT RESISTANT SEED AVAILABLE

COTTON GROWERS URGED TO STAMP OUT DISEASE SPREAD OVER MANY FIELDS.

CROP ROTATION RECOMMENDED

Excellent Results Obtained by Co-operative Work in Getting Pedigreed Strains.

Special to the Morning News.

Washington, Nov. 28.—The U. S. Department of Agriculture points out that highly selected seed of wilt resistant varieties of cotton can now be had in quantity from local growers who have been co-operating with the department, and that by purchase from these reliable sources farmers may avoid risk of loss from mixed seed or that untrue to name.

The wilt disease of cotton, which has been very prevalent this season, has caused heavy losses to many southern farmers. It has proved a serious problem in some sections where not only has the disease materially reduced the yields but has spread to fields not known to be previously infected. Already this disease is present in thousands of acres of the best cotton lands of the south and may prove destructive for an indefinite number of years. These facts should serve to direct attention to the valuable work that is being carried on for the improvement of certain varieties of resistant cotton for the control of this disease.

Much of the wilt resistant cotton grown in the south is of doubtful quality and resistance, which is probably due to the common practice among farmers of securing seed from their neighbors who have successfully grown cotton on diseased fields. The farmer who thus purchases seed, supplies others, in turn, the following season. In this method of distribution there are so many chances for deterioration and mixing at the gins and elsewhere that the originally high qualities. The reputation of the best resistant cotton may in this way, be at stake because the deteriorated strain often retains the name of the original variety. In order to maintain the reputation of a resistant cotton, it is necessary. Every farmer who has cotton will on his farm does not have the time or is not properly qualified to carry on systematic breeding work, but he may take advantage of the work that is being done by the use of well bred seed.

Several years ago department specialists realized that to supply the demand good wilt resistant seed must be produced on a larger scale. A co-operative agreement was entered into to breed and grow these seeds. This co-operative breeding work has been carried on in South Carolina, Georgia and Alabama, with results which demonstrate the value of high grade seed.

The work in South Carolina has been in co-operation with the South Carolina experiment station and under the personal supervision of a representative of the department and station. It was begun in 1911 and excellent progress has been made by the co-operative breeders. From the fields of Dixie and Dillon cotton which the breeders had planted in 1911, pedigreed strains of these varieties, which are highly resistant and productive, have been developed and their seed increased to the extent that in 1914 several thousand bushels were produced and sold for planting this last spring. That these seeds have given good results and have been the means of a great saving to many farmers is indicated in reports received from the purchasers.

The South Carolina breeders have grown several hundred acres of pedigreed Dixie and Dillon cotton which the present season and are so well pleased with the results that they have devoted a large acreage to the work the coming season. Since these breeders will probably have a large supply of seed for disposal as planting seed in 1915, the farmers are indicated in reports received from the purchasers. Careful inspections have been made of the fields during the growing season and comparative tests have been conducted on infected lands at several points in the south as a check upon the resistance and productiveness of the different varieties and strains.

In addition to determining their relative merits as wilt resistant cottons, it has been established that all the resistant strains are susceptible to anthracnose and this season they are almost entirely free from this disease.

The success of this co-operative breeding work, not only in South Carolina but in Georgia and Alabama as well, will enable many farmers to control the wilt disease on their farms. Those who may desire to purchase seed for planting next season should apply at once to the state experiment stations, or to their county agent. It must be remembered that where root-knot is associated with wilt in infected fields the problem of control becomes more difficult and that it is not advisable to plant even the most resistant cotton. The presence of root-knot increases the loss from wilt and where both are prevalent it is practically impossible to produce cotton successfully. It is important, therefore, to determine the presence or absence of root-knot, in connection with the control of the wilt disease, and where this pest is present to practice rotations with small grains, corn, iron cowpeas and other immune crops, as recommended in Farmers' Bulletin 825.

St. Louis business men are sitting down hard on the practice of customers returning goods. Only a restricted number of articles may be returned within thirty-six hours in an undamaged condition.

The ashes from Luzon's occasionally active volcanoes fertilize the soil and enable the Philippines to produce the world's finest hemp.

The first half-pint of milk at a milking contains 1.07 per cent of cream, while the last half-pint contains 19.30 per cent.

Sweden's bottle industry fears the results of the proposed prohibition law. About 1,000 workmen are employed.

LETS ONE BABY DIE; MAKES TWO HAPPY

Dr. H. J. Haiselden, Dorothy Riggs and Beulah Hope Wesley.

Dr. H. J. Haiselden, the Chicago doctor who let a baby die last week because the infant would have been hopelessly defective had it lived, is not reckless with life. The doctor, although a bachelor, has two adopted daughters, who are shown in the photograph.

OBJECTS TO REVENUE STAMPS ON POLLS

FALLS COUNTY TAX COLLECTOR MAKES PROTEST ON DEPARTMENTAL RULING.

Congressman R. L. Henry Takes Matter Up With United States Treasury.

Special to the Morning News.

Marlin, Nov. 28.—County Tax Collector Felix Turner, on being notified by the United States internal revenue department at Austin to require a 25c stamp tax on every order for a poll tax, made a strong protest to Congressman R. L. Henry at Waco, contending that the war stamp tax law was not intended to curtail the right of voting in any state and did not, by rights, apply to these orders.

Mr. Henry replied that he concurred in the view of Mr. Turner, stating he had written to the treasury department for a ruling on the question and that in case the ruling was unsatisfactory he would take it up in congress in December.

Ex-Slaves Want Pension.

Special to the Morning News.

Marlin, Nov. 28.—The ex-slaves of Falls county, as an organized body, have addressed a petition to the voters of the county, urging that they favor a private or state pension system for the remaining ex-slaves of Texas, or Falls county, as the case may be settled by the legislature, by a 2 per cent assessment and taxation per capita.

Mart Y. M. C. A. Boys at Austin.

Special to the Morning News.

Mart, Nov. 28.—The following from here attended the annual Y. M. C. A. older boys' conference at Austin, which was in session Nov. 26, 27 and 28: Frank Lowe, Gayle Bradley, Lee Starling, Lacon Smyth, Lester Williams, J. W. Waltrip, E. S. Gause and Prof. Edgar McLendon.

Protracted Meeting at Mart.

Special to the Morning News.

Mart, Nov. 28.—A protracted meeting began at the Presbyterian church today which will be conducted by Rev. Frank E. Fincher, pastor of the Second Presbyterian church of Houston.

Rev. Charles Oehrschmidt, pastor of the First Presbyterian church of Corsicana, preached both sermons today and addressed the men at the Y. M. C. A. at 4 o'clock.

Father O'Keefe of Austin Ill.

Special to the Morning News.

Austin, Nov. 28.—Father John O'Keefe, pastor of St. Mary's Catholic church of this city, is critically ill. He is 64 years old and was ordained a priest thirty-seven years ago. His illness was sudden and little hope is held out for his recovery.

Children Cry FOR FLETCHER'S CASTORA

IT IS WORTH ITS WEIGHT IN GOLD

Robert Harbison, Prominent Detroit, Has Made Interesting Discovery.

A great specialist, at one time, compared the human system to a delicate piece of mechanism, saying: "The flues need cleaning, the shafts oiling, and the drive wheel more energy."

Plant Juice, the new system tonic, now being introduced here, may be likened to the human repair shop. It puts the stomach, the keystone of the human system, in perfect repair, causing it to digest the food perfectly, correct constipation, purifies the blood, eliminates uric acid, the cause of rheumatism, opens the pores of the skin, and lets out the poison and cleanses the entire system. It stimulates the kidneys and puts a sluggish liver back to performing its proper functions, thereby laying the foundation for a new lease of life. Day by day more people are coming forward with statements concerning this wonderful preparation. The following testimonial was made by Mr. Robert Harbison, who lives at No. 718 Canton Avenue, Detroit, Mich., and is connected with the city gas company. Mr. Harbison is prominent in lodge circles and his integrity is absolutely unquestioned. He stated:

"I had been afflicted for a long time with a serious case of stomach trouble. My food fermented, causing gas and made me very dizzy. I had no appetite and was in a generally 'run-down' condition. I had tried almost every known remedy without receiving any benefit, until I commenced to use Plant Juice. I have only been taking Plant Juice for one week and I am now feeling like a new man. It is worth its weight in gold. I am recommending Plant Juice to all my friends who suffer from stomach trouble."

Plant Juice is sold in Waco at Morrison's Old Corner Drug Store.

Educated Cypriotes Refuse to Labor

By The Associated Press.
London, Nov. 28.—The youthful Cypriot is a difficult subject to educate, for once he gets a bit of schooling he becomes too proud to work and lets his parents support him, states a report from the British authorities on the island of Cyprus.

Cyprus schools are in the towns. The youths come from the country in large part. They come in peasant garb, but return in modern European clothes and strongly imbued with the idea that it is beneath their dignity to lay hands to any sort of toil, even to fetching a pitcher of water from the spring. They are even encouraged in this idea by their parents. As the result, educated youths refuse to do any work except clerical, and when not employed they spend their days in bed and their nights in cafes.

The island of Cyprus, which became a British possession on the outbreak of the war with Turkey, was recently offered to and refused by Greece, as the price of joining the allies. In former years it was celebrated for its famous wine, a desert wine of the nature of port, but little known in Europe now. Large supplies of livestock and of foodstuffs have been purchased by the British government from the peasants, although this year's crops have been poor. The olive crop was almost a complete failure and the wheat disappointing. But the high price obtained for cereals and vegetables for the use of the British troops in Egypt and the Dardanelles made amends to the farmers.

The British rule here has been popular not only with the Christian but with the Mohammedan population, who were glad to escape from Turkish corruption and exactions.

2,500 ATTEND TWO REVIVAL SERVICES

"JESUS, THE PRE-EMINENT SAVIOUR" DR. TULL'S SUBJECT AT COLUMBUS ST. CHURCH.

FIRST WEEK SUCCESSFUL

Twenty-two Additions to Church Recorded—"Is There a Literal Hell?" Subject of Tonight's Sermon.

"Jesus, the Pre-eminent Savior," was the subject of Dr. S. E. Tull at the Columbus Street Baptist church revival yesterday morning. The large auditorium of the church was filled for both morning and night services, it being estimated that at least 2500 persons attended each.

Approximately 300 attended Dr. Tull's lecture to men only in the church yesterday afternoon. Yesterday's services resulted in ten additions to the church. The first week of the revival, which will continue all this week, has resulted in 22 additions.

The singing in the revival is an inspiring feature. Old familiar songs are used by Drew Cumbie, leader, and congregational singing has been developed to a high pitch.

"Is There a Literal Hell?" will be Dr. Tull's subject tonight. "Jesus, the Pre-eminent Savior," Rev. Dr. Tull said in part:

"I could speak to you of the Christ pre-eminent in history. This context declares Jesus to be the inspiring cause in the creation of the world. It was He who set the machinery of history into majestic motion. It would be a pleasant task to trace the trend of historical events, and to show how the influence of Jesus Christ today in the affairs of the human race. Jesus is not only the maker and master of natural forces, but He gave to the civil governments of the world their ultimate authority. Jesus gave to the earth a new spirit of democracy. The glittering crowns of ancient empires are being trampled under foot as men are learning the doctrine of the Christ when He said, 'One is your master, even Christ, and all ye are brethren.' Equal privilege and equal sovereignty under the laws which govern men are only the political application of Christ's doctrine of brotherhood. Out of the clash of war in Europe today will come a new spirit of democracy. The great masses of men who fight for the Crown will struggle into the light of individual freedom, and come to know that the greatest expression of civil glory is not found in the personality of a monarch but in the supremacy of a citizenship where no man wears a crown but every citizen is a sovereign."

"I could speak of the Christ pre-eminent in literature. Jesus gave to the world its finality of thought. He gave to philosophy the key to the store-house of all truth. To logic, He furnished an immutable premise and its mastering conclusion. To poetic genius, He gave a soul, and turned the wings of imagination loose into new worlds of sentiment wherein to soar and sing."

"I could speak of the Christ pre-eminent in art. Jesus gave the soul of art new life, and a Raphael, and a Michel Angelo lived and wrought. The canvas glowed with new and celestial colorings. Architecture received its crown of adornment, and new temples of worship and industry stood forth as the wonder and admiration of the world."

"Jesus gave to music a new melody and mission, and there awoke new choirs within the human breast whose praise has inspired the race to nobler and better living. Every human enter-

"Jesus is the pre-eminent Lord. He is the head of the body, the church. The office of Jesus as Savior has relation to the sinner. His office as Lord has relation to the Christian. He is the Savior of sinners, but He is the Lord of the Christian. His Lordship settles forever the question of authority in His churches. There is no church government save the words of Jesus. There is no church hierarchy. He is not the supreme and only Head. Popes, hierarchies and bishops are blatant blasphemies, and treasonous assumptions of the exclusive right of Jesus Christ to be the only Lord in the household of faith, and the only Head of the church for which He died. The Lordship of Jesus will settle all the personal problems of the Christian life. Here many of us have failed of inheritance as His servants. Our Christ is no constituted Lord. He has mastered for us the whole field of our opposition. I must remember that He can do in me what He has done for me. He suffers all things for our sakes, that we might have good comfort in Him."

"Our Lord shall one day be King pre-eminent. His kingdom is now in preparation. He has not yet substituted the blades of stars for the even of thorns. His day of universal kingship is not yet. He is now translating men into His kingdom and translating His kingdom into men, but one day He shall be crowned King of Kings and Lord of Lords. In all things He shall have the pre-eminence. The supreme purpose of God, the crowning consummation of the gospel, the ultimate destiny of human hopes, is the coronation of Jesus as King of Glory!"

"Jesus shall reign. Where'er the sun Doth His successive journeys run, His Kingdom spread from shore to shore, Till moons shall wax and wane no more."

"O thou imperial Christ, have dominion from everlasting to everlasting. Unfurled thy royal banner on every sea; herald thy glorious message of emancipation to every land, bear thy conquering sceptre to earth's remotest bounds, and in thy matchless majesty and pre-eminent glory, reign and rule forever!"

American Minister Helps to Dedicate Chinese College

By The Associated Press.

Tungchow, Chihli Province, China, Nov. 28.—Dr. Paul S. Reinsch, American minister to China, was the chief speaker at the dedication of the North China American school on Oct. 25 by the Methodist Episcopal, the Presbyterian and the American (Congregational) missionary boards.

The school was erected on the site of the American board compound in Tungchow with funds given chiefly by the Presbyterian board. Money for the annual expenditures is provided by the three boards. Miss Flora Beard is principal of the new school and has three assistants. The scope of the institution is from the fifth grade to a high school course. The institution was primarily designed for the children of missionaries, but will provide educational facilities for other American and European families in North China. Rev. Charles F. Hubbard, pastor of the Union church in Peking, and many other religious workers in North China attended the dedication.

Among the Americans who made special contributions for furniture and equipment is Mrs. Andrew Carnegie. The school twenty-five to thirty-one pupils from Chihli, Shantung and Shansi provinces.

Weekly Cotton Report.

New Orleans, Nov. 28.—The cotton market entered into a series of strong advances in the middle of last week, closing within a few points of the top. The main influence at work was improvement in the spot demand, although bullish sentiment was stimulated by smaller crop talk and by expectations of bullish returns in the next ginning report. At the best of the week prices of the most active months were 32 to 36 points over the previous week's close. From the lowest to the highest there was a rise of 97 to 101 points, or almost exactly one cent a pound. The close was 71 to 74 points up net.

Heavy spot trading in Liverpool, stiff advances in spot quotations, and the New York market, increased interest in the staple on the part of buyers and continued firmness of spot holders were features most prominently mentioned in the market news of the latter part of the week.

This week the spot situation is expected to be of more interest than ever because it is generally thought developments will show more cotton has been sold in the interior than bearish inclined traders are willing to admit. Bulls, however, will be hampered to some extent by the ocean freight market, which has been strong for the last few days, with a tendency to climb to what most shippers think are unreasonable levels.

Inability to move cotton, however, would not altogether stand in the way of fresh buying of spots, since buyers could store in this country, a proceeding which bulls claim has been done on a much larger scale than is generally realized.

THEATRES

HIPODROME.

"The Martyrs of the Alamo."

If every school boy and girl who is studying Texas history in the Waco schools will see "The Martyrs of the Alamo" as directed by David W. Griffith and produced by the Triangle Fine Arts company, and in showing at the Hippodrome today, there will be an unprecedented number of perfect papers on test day of the Texas-Mexico war. It was Thomas A. Edison who said, "Give me a motion picture and I'll teach more history in fifteen minutes than an instructor would accomplish in a month with textbooks," and it was David W. Griffith who made capital of the idea. "The Birth of a Nation" was his first great historic picture. It dealt with the United States as a whole. He has sought and found and planned ideas for pictures based on the crisis and growth of the states individually and collectively, and the history of Texas has afforded him one of the most thrilling and most tragic and most glorious. "The Martyrs of the Alamo" is the result. Historically accurate in every detail, it is an education and an inspiration for every Texan, young and old.

The battle of the Alamo where brave Bowie, Travis, Crockett, Davis and a few others fell and a few Texas women paid the price of degradation and slavery for our state's independence, is vividly and stirring portrayed. The crossing of the line drawn by Travis as indication of their willingness to die like heroes has made the brave men of the fortress real to every Texas school child, and the story of Bowie's bravery even though he was near death from tuberculosis, is a household word. Mrs. Dickinson's escape also is familiar to every Texan. The battle of San Jacinto where Houston and his men took by surprise and routed an army of Mexicans in twenty minutes and gained Texas' independence, with the loss of only one man, is strikingly pictured, as is the capture of Santa Anna and his appearance before the wounded Houston under a big oak tree.

This stirring Texas picture will be at the Hippodrome today and tomorrow.

Notice, Maccabees.

The grown-ups of the order, Knights and Ladies of Maccabees, that is, the wives, husbands and sweethearts, are invited to the annual reception of the order, to be held at the home of Lone Star tent No. 41, Tuesday night, Nov. 30.—(Adv.)

All-Western Team is Chosen Only From Mid-West Schools

By the Associated Press.

Chicago, Nov. 28.—Good football backs were plentiful, but good line men scarce in the Central States, according to critics who assumed the task of picking All-Western teams. The name All-Western itself is a misnomer, for only the limited territory from Ohio to Nebraska, inclusive, is covered in the search for talent. No account is taken of Southwestern, Rocky Mountain and Pacific coast players, although at least one of them, Herman Abraham of the Oregon Aggies, made a remarkable showing against the Michigan Aggies, one of the best teams in the district covered.

In the selection available, the following have received the greatest number of votes:

Chicago—Chamberlain, Nebraska, and

Boston, Michigan.

Tackles—Buck, Wisconsin, and Shull,

Chicago.

Guards—Fitzgerald, Notre Dame, and

Dunnigan, Minnesota.

Center—Watson, Illinois.

Quarterback—Russell, Chicago.

Halfbacks—Maulbettsch, Michigan, with

Rutherford, Nebraska, and Dacomber, Illinois, equally divided.

Fullback—Herman, Minnesota.

Some machine guns have a firing power of more than 1,000 shots a minute.

TOM SHEVLIN IS THE HERO OF YALE

By the Associated Press.

Yale, Nov. 28.—Tom Shevlin, a sophomore, was the hero of the day around New Haven. Football experts hold him responsible more than any other man for the remarkable change wrought in the Yale eleven.

Patrolman Tennison Is Not Seriously Injured

Officer Frank Tennison, who was attacked in the reservation by three assailants while on duty Saturday night, was resting easy at his home last night and unless infection should develop from the injuries, is expected to be out in a few days. Tennison was first hit over the left eye by some instrument by the first assailant, who fled, and received other injuries from the two men that clinched with him. L. L. Cisco, an officer on special duty, came to Tennison's assistance and prevented further injury. Shelton Clay and Bill Harvey, who were taken in custody after being considerably beaten up by the officers, were transferred to the county jail yesterday and charged with aggravated assault and battery.

The third member of the attacking trio is being sought for by the officers, but up to last night had not been located, although the police have a fair idea of his identity. A third man arrested on a charge of speeding and suspected by the police to be indirectly connected with the escape of one of the assailants, was released on bond yesterday.

Zemo for Dandruff

You do not want a slow treatment when hair is falling and the dandruff germ is killing the hair roots. Delay means no hair.

Get, at any drug store, a bottle of zemo for 25c or \$1.00 for extra large size. Use as directed, for it does the work quickly. It kills the dandruff germ, nourishes the hair roots and immediately stops itching scalp. It is sure and safe, is not greasy, is easy to use and will not stain. Soaps and shampoos are harmful, as they contain alkali. The best thing to use is zemo, for it is pure and also inexpensive.

Zemo, Cleveland.

Austrian Red Cross to Balkans.
Vienna, Nov. 28.—At the request of the Bulgarian government and the queen of Bulgaria, the Austrian Red Cross is fitting out two volunteer relief and medical bodies for service in the Balkans. The one will take charge of the new hospital with 500 beds that has been established in the Gladstone Gymnasium school in Sofia. The other will be available for field work. The Bulgarian government's telegraphic request emphasized the need of a "la gregelle expedition to the Bulgarian theatre of war."

German Commerce Destroyed.
By The Associated Press.
London, Nov. 28.—Of the 5,459,296 tons of which the German merchant marine consisted at the beginning of the war, 230,000 tons have been captured by the British navy and 35,000 tons by other allies, while 117,000 tons have been sunk and 337,000 tons interned in ports of the British empire. The remainder, except the few ships at large in the Baltic, are interned in German and neutral harbors.

These figures were given out by Sir Owen Phillips while presiding at a meeting here of a British shipping company.

COMMITTEE ON Y. M. H. A. MEET THIS MORNING
MORE THAN 150 WILL ATTEND SCHOOL OF INSTRUCTION THIS WEEK.
Masonic Grand Bodies Begin A Sessions Next Week—Older Masons Here.

E. K. Hawkins of Brownwood, chairman; W. P. Lawrence, Carthage; V. C. Karnes, Pearl; E. W. Henderson, Abilene; and George G. White, Bertram, members of the committee on work of the grand chapter, Royal Arch Masons, arrived in Waco last night. The committee will begin its sessions in the grand lodge temple, Sixth and Franklin streets, this morning, continuing all the week. Instruction in the secret work of the order will be given to approximately 150 candidates for certificates to take the work of the order. About fifty of the candidates who will attend the school of instruction arrived in Waco yesterday and last night. Others will come in today. The committee on work of the grand lodge, composed of G. F. Morgan, chairman, El Paso; J. H. Knowles, Midland; A. L. Hartshorn, Fort Worth; F. M. Adams, London, and W. S. Tate, Hamilton, will meet following the sessions of the grand lodge bodies arriving week. The meetings of the committee on work of the grand chapter are held the week preceding the meeting of the grand bodies, and the corresponding committee of the Blue lodge meets the week following the sessions.

The grand chapter, Royal Arch Masons, will begin its annual convocation Dec. 5, and the annual assembly of the grand council will begin the same day. The annual communication of the Masonic grand lodge of Texas will begin the day following. W. A. Scott of Floresville is grand high priest of the grand chapter and T. M. Bartley of Tahoka grand secretary. E. R. Bryan of Midland is grand master of the grand council and T. M. Bartley grand recorder. Jewell P. Lightfoot of Austin, formerly attorney general, is grand master of the grand lodge, W. P. Pearson of Waco being grand secretary.

F. P. Hardin of Navasota arrived yesterday for the sessions of the grand lodge. Mr. Hardin, who is 83 years old, has attended all except two meetings of the grand lodge since 1866. He was made a Master by Mount Enterprise lodge No. 60 in 1861.

MISSIONS DISCUSSED AS WORK FOR WOMEN

STATE SECRETARY C. W. B. M. SPEAKS TWICE AT CENTRAL CHRISTIAN CHURCH.

Educational Work Among Negroes and Southern Mountaineers Important, Says Mrs. Terry King.

The work on home and foreign fields of the Christian Women's Board of Missions was comprehensively reviewed yesterday by Mrs. Terry King of Fort Worth, state secretary of the organization, who spoke twice at the Central Christian church. Mrs. King's morning address was devoted to a review of the missionary work of the church in foreign countries. The night address reviewed the home field, including work among the negroes of the south, the Chinese and Japanese on the Pacific coast, and the educational work among the mountaineers of the Appalachian regions.

Special music for both services was furnished by the church choir, and Mrs. J. S. Wren, director of choir sang at each service. Mrs. King was introduced by Rev. F. N. Calvin, pastor of the Central Christian church. For the morning address, a section of the auditorium was reserved for the executive leaders of the organization of Missionary societies, who were present in a body. Members of the C. W. B. M. of the Central Christian church also occupied seats in a reserved section. The auditorium was especially decorated for the occasion.

Mrs. King, beginning her address last night, protested against the egotism of the speaking of the United States as "America," stating that citizens of this country should not forget the wonderful opportunities offered by the resources of the great continent to the south. South America, said Mrs. King, with unparalleled resources, is hampered by a lack of religion. She said that a religious survey of Buenos Ayres, the capital of Argentina, revealed that only 300 men in a population of 1,500,000 attended church services.

Mrs. King mentioned the action of the executive church in turning over the entire educational work among negroes to the C. W. B. M. She said that there were 11,000,000 negroes south of the Mason and Dixon line, and that the work of educating them was one of the greatest and most important tasks of southern civilization. She discussed the work of the schools for negroes maintained by the denomination in Mississippi, Alabama, Kentucky, Virginia and Texas.

The educational work of the denomination among the mountaineers of the Appalachian region came in for a lengthy and interesting discussion by the speaker, after she had explained that her evident enthusiasm in this part of the home mission work of the church was due to Kentucky nativity.

To give an idea of the immensity of the work, she stated that there were 100,000 adults in the Appalachian mountains who could neither read nor write. She appealed to church members and organizations to undertake to bear the expense of educating one or more of the mountain children, stating that board, tuition and textbooks in one of the denomination's mountain schools could be had for \$100 a student a year.

The institutional work among Japanese and Chinese on the Pacific coast and Mexicans in some of the larger cities of the far southwest were also discussed.

Old Crimp is here. Gas Pipe, Gas Stoves, Hot Water Heaters, and all kinds of Gas Burners for Stoves, Grates, Boilers, Etc. Either phone 396, Flood Plumbing Co.—(Adv.)

The people who are taking Oxidine are being relieved of chills and fevers. Why don't you do likewise? At all drug stores.—(Adv.)

WACO HEBREWS MEET TO ORGANIZE Y. M. H. A.
ASSOCIATION WILL BE CULTURAL, SOCIAL AND ATHLETIC IN PURPOSE.
Organization Will Be Completed Next Sunday—Interesting Programs in Preparation.

Preliminary steps toward the organization of a Young Men's Hebrew association in Waco were taken yesterday afternoon at a meeting in Temple Rodef Shalom. Addresses were delivered by Rev. Dr. I. Warsaw and Dr. Emanuel Toomin. Permanent organization will be completed at a meeting in the Temple next Sunday, when officers will be elected. Gus Fred, Bernhard Sachs and J. O. Berlowitz were selected as a committee to prepare a program for the next meeting. Twenty-five young Hebrews of the city were present at the meeting yesterday.

The organization will be planned and conducted along lines similar to other organizations of the same name in all the larger cities of the country. Its purpose will be to further the intellectual and physical development of the community, and its programs will consist mainly of these features. In addition, social programs will be arranged for each session. One or more addresses by leading citizens of the city and state at each meeting will be a permanent feature of the programs.

WACO GRIP-TOTERS HOLD WEEKLY MEET

DECIDE OUTSIDE TRAVELING MEN MAY BE ADMITTED TO CLUB.

Membership Will Be Raised to 100. Full List of Committees to Be Appointed.

The Waco Traveling Men's association held a very interesting session at the Waco hotel yesterday morning, beginning at 10 o'clock, presided over by President J. S. McClintock.

The following new members were enrolled: J. R. Kelley, Tom Hewlett, Tom Cole, R. E. Deeley, W. H. Hackney, G. O. Francisco and B. M. Perrow.

Chairman McClintock named the following committee to bring in a constitution and by-laws for the new organization: C. E. Ivy, E. A. Schmitt and M. B. Davis.

It was decided that the name should be the Waco Traveling Men's association, but knights of the grip from over the state and other states would be eligible for membership.

Interesting talks were made by C. K. Weil, George B. Eubank, B. M. Perrow, A. D. Adams, T. C. Edmondson, J. S. McClintock, E. A. Schmitt, Charles B. Ivy, M. L. Smith and others. The membership committee, of which W. T. Wheeler is chairman, was instructed to get in touch with the traveling men of Waco who are not members and secure their membership, which is only \$1.00 per year. Motion of C. B. Ivy prevailed that every one work to secure a new member at least by next meeting, and that the organization's enrollment be brought to the grand total of 100 members, after which it would steadily gather momentum.

Among the committees that will be named by the new organization will be finance, entertainment, amusement, membership, visiting and sick committee, committee on grievances, hotels, transportation and accommodations. The visiting and sick committee will ascertain the names of any Waco or visiting traveling men who may be sick or disabled and do anything possible to bring comfort and cheer.

The chief purpose of the new organization is social and the betterment of conditions in general for knights of the grip on the road.

The next meeting will be held at the Waco hotel, Sunday morning next, at 10 o'clock.

CANNING CLUB SLATED FOR WACO ORPHANAGE

MRS. J. L. LANDRUM, STATE SUPERVISOR, IN CITY PLANNING WORK IN COUNTY.

Will Ask Co-operation of Y. M. B. L. in Introducing Work, Which Will Begin Within Ten Days.

Mrs. J. L. Landrum of Austin, state organizer and supervisor of the Girls' Canning clubs of Texas, under the department of agriculture, will lecture at the Methodist orphanage this week and organize a canning club among the girls of the institution. Mrs. Landrum has been here for some time in connection with the canning exhibit at the Cotton Palace and in planning her work for this part of the state. It is probable that she will begin the organization of canning clubs throughout the rural districts of McLennan county within the next ten days.

"I understand that the orphanage has about 1000 empty jars, and I think with the interest and training in the canning club these can be filled," said Mrs. Landrum last night, after she returned from a two days' trip to Austin to confer with members of the department. So enthusiastic has Mrs. Landrum become over the introduction of the canning clubs in orphanages that she expects to organize a club next at the Corsicana orphanage and eventually include all institutions of this character in the state.

These clubs will be given the same privileges of the regular canning organizations and taken into the state association. These clubs are furnished a kind of correspondence course to keep up interest and growth in expert canning, and have the privilege of writing to Mrs. Landrum for any information or solution of problems that come up.

Mrs. Landrum will confer with Forrest Goodman, chairman of the agriculture committee of the Y. M. B. L., today with reference to the co-operation of the league committee in organizing this county.

Ring 306, either phone, for Gas Stoves, Gas Piping, Gas Burners for any stove, Gas Water Heaters, Pittsburg, Rudd, Humphrey, Century, Lawson Superior or Woods or anything in the plumbing line, 121 South Eighth, Flood Plumbing Co.—(Adv.)

Dr. Guy F. Witt Receives Important State Appointment

Dr. Guy F. Witt will leave today for San Antonio, where he has accepted the appointment as assistant physician of the Southwestern Insane asylum. Dr. Witt will return to Waco within a few days to superintend removal of his household effects, and will then be accompanied to the new home by Mrs. Witt.

Dr. Witt has been engaged in the practice of medicine here with his father, Dr. J. M. Witt, for the past three years, during which time he has established a reputation as one of the most prominent young physicians of the state. The appointment was made by Dr. B. T. Young, superintendent of the asylum.

Third Time Anything But Charming, From Perry Duncan's View

For the third time Perry Duncan, cashier of August A. Busch company, has had his horse stolen from him, but unfortunately the third time is interpreted to mean the fondness of the thieves for the animal. The horse, a light bay with black mane and tail, was taken with the buggy from the Auditorium Saturday night during the performance of "Daddy Long Legs." In two previous instances the horse was taken and driven at night and later deserted. But despite diligent searches by Mr. Duncan and the police, the horse and buggy had not been found up until last night. The buggy was a black "piano box" style vehicle with worn rubber tires.
